

Bibliographic Citation Worksheet

Books Source

As you identify sources and gather information from them, **also collect the important facts that describe that source for your Works Cited page or bibliography.** Once you have the facts for all sources, it will be easy to insert them into Noodletools templates to generate your Works Cited page.

NoodleBib 6 login: <http://www.noodletools.com>

I. Key facts about a book source (as many as are available):

1. Author's (or editor's or compiler's) name(s)

2. Title of Book

3. Publishing City (take the first city name given, include the state if city is unfamiliar)

4. Publishing Company

5. Copyright date (often on back side of the title page)

II. Additional facts that may also apply:

- Volume number

- Edition number or revision

- Series name

If you use an article/chapter with in a book, also include:

- Title of chapter or article

- Author(s) of chapter or article
