**MONTGOMERY COUNTY PUBLIC SCHOOLS
INTEGRATED PEST MANAGEMENT NOTICE**

WOOTTON HIGH SCHOOL

FOR ELEMENTARY SCHOOLS: Maryland Law requires that school staff and parents/guardians of all students be notified prior to planned pesticide applications in the school or on school grounds, or within twenty-four hours of an emergency application. Without exception, notices will be sent to all parents/guardians and circulated among school staff members.

FOR MIDDLE SCHOOLS, HIGH SCHOOLS, AND ADMINISTRATIVE CENTERS: Maryland Law requires that school-based staff and parents/guardians of middle or high school students and staff at administrative centers who wish to be notified prior to pesticide applications in the building or on the grounds must request that they be placed on the school's pesticide notification list. To do so, please fill out the enrollment form attached to this notice and return it to your school or administrative center.

FOR ALL: The Integrated Pest Management (IPM) program employed by the Montgomery County Public Schools is a proactive approach to insect and rodent control in school facilities and on school grounds. The IPM program includes frequent inspections of all school facilities to look for pests and conditions that favor pest invasions. As a first step in pest control, the IPM approach employs a number of preventive strategies and alternatives to pesticide application such as: employee education, source reduction, identification of potential problem areas, and improved sanitation. Each approach is monitored and evaluated, and modifications are made if necessary. Pesticides will be used only as a last resort or in an emergency situation.
