#### Re: FUND RAISING POLICY

Mrs. Praisner asked if the policy would go out to the community before the Board was asked to act on it, and Dr. Pitt assured her that it would be sent out after the Board's discussion.

Mr. Ewing suggested that staff reword the first sentence under Process and Content which defined fund raising activities as those which have as their primary purpose the generation of funds. He noted that the cover memorandum to the policy stated that the committee did not address the issue of equity among schools. Mr. Larry Bowers, chairperson of the committee, explained the difficulties of trying to address the equity issue. The committee decided to write a policy addressing the broad spectrum of fund raising and not deal with equity.

Mrs. Rafel agreed that the question of equity could not be addressed in a policy. She suggested getting community representatives together to talk about equity in fund raising. She did not see how they could possibly write a policy to cover all of the situations that might arise. Dr. Shoenberg commented that one way of doing this was to tell schools they could not spend more than a certain amount or another way would be to adopt an equalization formula. Another method might be to have funds raised taken over by a central organization and then parceled out to individual schools. All of these plans had drawbacks, and the alternative was to keep on with the present arrangement.

Dr. Cronin suggested a rewording of the section on funds used to purchase supplemental educational materials or equipment to enhance the instructional program. Mrs. Praisner questioned the inclusion of the sentence encouraging other organizations to prohibit door-to-door sales by elementary school students. Dr. Cronin suggested a rewording to include other organizations "raising money for school use."

Mr. Park asked about fund raising by MCR, MCJC, or the countywide jazz ensemble or band. It was not clear about who determined what constituted an appropriate fund raising group. For example, the Montgomery County Region of Student Councils was not a school function. Mrs. DiFonzo suggested adding a phrase about "other organizations raising money for school use." Mr. Park pointed out that organizations in the policy were directed to the principal for guidance, but there was no mention of guidance for countywide groups. Mr. Bowers agreed that they could have some wording changes here. Mrs. Praisner suggested amending the policy to show what was present practice for these groups.

Mr. Ewing stated that the major problem with fund raising was that some schools raised more money than other schools, and the policy did not address this. One option might be a per capita cap on the amount of funds. He questioned the wording about fund raising supporting individual students whose families could not afford to pay for their children's participation in optional activities. He felt they should state clearly that every eligible child gets to go on these activities. He said that the statement was backwards because it did not mandate that funds must be used for those purposes. Dr. Steve Tarason, principal of Takoma Park IS, reported that some PTAs gave principals a discretionary fund for children who could not afford a field trip. He agreed that they had to look at the wording here. Dr. Pitt reported that in some cases they did charge for field trips, but they did make sure that every child could attend. This was now MCPS policy.

Mrs. Praisner suggested that when they send the letter on the fund raising policy out to the community that they include issues raised in Board discussion, particularly the issue of equity.

On motion of Mr. Ewing seconded by Dr. Shoenberg, the following resolution was adopted with Mr. Ewing, Mr. Goldensohn, (Mr. Park), Mrs. Praisner, Mrs. Rafel, and Dr. Shoenberg voting in the affirmative; Dr. Cronin and Mrs. DiFonzo abstaining: RESOLVED, That the FY 1990 Capital Improvements Program be amended to add funds to air-condition Whetstone Elementary School.

- Mr. Goldensohn asked that the superintendent and the new director of information look at the idea of publishing a journal of staff writings. Many staff members had published articles and documents of very high quality. This could be similar to the publications produced for the superintendent's writing awards program.
- 2. Mrs. Rafel noted that this was the last time she would have an opportunity to speak under Board Member Comments. She asked that the Board remember her when they talked about the fund raising policy and parental involvement and outreach. When she came on the Board, she had wanted to visit some of the J/I/M level schools to find out what they were doing in terms of children's affinity needs and parent outreach. She did manage to visit seven of these schools and to see how they were organized. She assured the Board that there were some wonderful things going on. She was looking forward to seeing the Villani report in the spring. She commented that there were a lot of terrific things going on in this school system, and the Board should take time to relish some of the good things that were going on. She thought that some day they might come up with a parent contract between the system and the parents. One element they might want to think about was the idea that children went to school, but there was no quarantee that they would stay in any one particular school or any one community over the life of their enrollment in MCPS. She would like to have the school system find some ways to help parents understand they might have to adapt to some school changes. She said that she had enjoyed being part of the Board for eight and a half months.
- 3. Mr. Goldensohn complimented the building service workers who did an excellent job in cleaning up schools after election day. Dr. Vance said that he would pass this on to staff.
- 4. Mrs. DiFonzo reported that she had attended a conference in San Francisco sponsored by the Center for Disease Control. Five people from Montgomery County had attended a conference on establishing AIDS prevention programs for youth. She asked that when Mr. Masood brought the AIDS curriculum to the Board that he also bring the conference group to report on what was going on in the county on AIDS prevention programs for youth.
