Re: Annual Report of the  
Title IX Advisory  
Committee

Ms. Margaret Zierdt stated that their first objective was to maintain and update knowledge about Title IX law and how it relates specifically to the Montgomery County Public Schools. They recommended that the Board continue to monitor the employment situation. Their seconded recommendation was that the Department of Personnel Services should develop an action plan for increasing the number of females in A&S positions. Their third recommendation concerned the math/science and women committee. Their survey showed a great discrepancy in the enrollment of young women in the more advanced areas of science and mathematics. Mrs. Zappone asked whether they had checked the grades students had achieved at the lower level because students pursued courses where they are successful. Ms. Zierdt explained that they had the data requested by the State Department of Education, but it would be interesting to find out the scores that boys and girls achieved. If there were differences, it would be a good place to start remediation. Dr. Greenblatt asked whether they had any theory as to why there were more women in advanced biology. Ms. Zierdt replied that it was one of the courses women had been permitted to pursue. She noted that more girls took biology than physics. Mrs. Spencer remarked that this spoke to the counseling for course enrollment and for careers. She pointed out that biology was useful for someone going into a nursing career.

Dr. John Larson explained the appendices that he had developed. He said the higher level of the course, the higher percentage of male enrollment, and there was a trend of increasing male concentration in the higher mathematics courses. He felt that this was probably by student choice rather than what the schools did for or to them. He pointed out that the broader range of options the students had available, the more clearly the sex differences were seen. He noted the required courses were about 50/50.

Mrs. Spencer pointed out that the recommendations made by the committee were all administrative recommendations. In regard to the internship brochure, Mrs. Zappone wondered whether they should defer publishing because internships were limited. The superintendent explained that this recommendations was not in the real world because there were 60 less positions in the areas and they would be looking at the central office. If the closed 20 schools, they would have 20 less principals. Ms. Irma Dobkin felt that even with closings it would be better to have something in writing because it did make the commitment.

Mrs. Spencer called attention to the recommendations about the survey report. She cited staff training, improved counseling, improved public relations, and evaluation and follow up.

Ms. Zierdt called attention to the memorandum on pregnant students. She hoped that the school system would encourage pregnant women to staff in class and to return to class as well and encouraging the fathers to stay in school. Mrs. Zappone

asked about the numbers of students involved here. She said that when they had discussed this previously she had raised the question of having visited a New Horizons High School which had all the things needed by a teen family.

Dr. Greenblatt asked whether they had any indication that the school system was not doing the things that they recommended from the survey report. Ms. Zierdt replied that these were continuing concerns. She felt that they needed to be constantly aware of these concerns, but she said that the county could pride itself on where it was. She said the MCPS should conduct a survey to find out how much knowledge students had about Title IX. Mr. Ewing commented that he did not disagree with this recommendation, but what was not clear was what the school system should do when it found out what students knew about Title IX. Ms. Dobkin replied that part of this would involve an outreach program to the community.

Ms. Zierdt said they were recommending that MCPS analyze a sample of communications sent home to determine whether sex-fair language was used. One other item was continuing dialogue with Board members. She said they were pleased that the Title IX liaison people received training last year and would receive it this year. In regard to Merit Scholarships, they investigated the cost of having every junior take the PSAT and found it would cost \$54,000. In terms of community outreach, the committee had participated in the Women's Fair. In regard to the Merit Scholarships, Mr. Barse said the report stated that any inequity was a function of individual schools and was not system wide. It was not clear to him what happened in the individual schools.

Ms. Zierdt replied that they first thought that schools not responding to their survey had a low percentage of girls who achieved semi-final status, but they found it was not true. She called attention to the item on sex bias in tests and recommended that MCPS form a committee to examine test for sex bias. They also has the objective of working with students and had found that the students on their committee had been very helpful. They had found that the visibility of the Title IX people in the schools was low. Their fifth objective was to have more community participation, and they would be celebrating Women's Week on March 7-13, 1982.

Mrs. Spencer inquired as to whether the half-day human relations workshop would be an additional day or whether they would use one of the existing days. Dr. Stephen Lanham Tarason replied that the recommendation was to use the existing half-day. Mrs. Spencer thanked the committee for their presentation.

Re: Confidentiality of  
Executive Sessions of the  
Board of Education

Dr. Greenblatt moved the following which was seconded by Mrs. Zappone:

WHEREAS, The Board of Education is authorized by law to meet in executive session for certain stated purposes (see Article 76, Section 11(a), Education, Section 4-106(e) (2) and 3-703(b), of the Annotated Code of Maryland); and

WHEREAS, The Board of Education determines that it is in the public interest that the deliberations of the Board of Education in a duly convened executive session be and remain confidential in order to assure that the members may be encouraged to participate in free and open discussion at duly closed executive sessions; and

WHEREAS, The Board believes that it is the intention of the law that deliberations in executive session be confidential; and

WHEREAS, The Board further recognizes that Board members have constitutional rights to freedom of expression but that such rights are preserved for Board members in executive session under the provisions of the State Board of Education Bylaw contained in COMAR 13A.02.01.01B; and

WHEREAS, The Attorney General of Maryland has provided an opinion to William Sykes, President of the State Board of Education, dated November 26, 1980, in which he stated that "repeated violations of confidentiality that demonstrably impair the Board's ability to function legislatively by inhibiting free and open discussion at properly closed executive sessions might well constitute grounds for removal by the County Council" but further stated that "nothing in State law imposed a general duty on members of county boards of education to maintain the confidentiality of executive session;" and

WHEREAS, The Board believes that the issue of confidentiality of Board members' discussion in executive session is of statewide concern and importance, and the issue of whether the State Board of Education or the State Legislature should impose a duty on members of local boards of education by adopting a regulation or law should be considered by the State Board of Education; and

WHEREAS, The National School Boards Association has adopted a Code of Ethics; now therefore be it

Resolved, That the deliberations of the Board of Education duly convened in executive session shall be considered by Board members as being confidential, and Board members should maintain the confidentiality of executive session deliberations as a matter of promoting the public interest and as a matter of ethics as public officials; and be it further

Resolved, That the Board of Education of Montgomery County herewith adopts the National School Boards Association Code of

Ethics; and be it further

Resolved, That the Board instructs the superintendent to amend MCPS Regulation 201-5 accordingly; and be it further

Resolved, That a copy of this resolution be forwarded by the President to the State Board of Education and that the State Board of Education be urged to adopt an appropriate amendment to its bylaws or to initiate legislation to the General Assembly of Maryland which would impose a legal duty on board members to maintain the confidentiality of discussions in executive sessions, and that serious, or deliberate, or repeated violations of this duty can be considered misconduct in office.

Resolution No. 679-81

Re: An Amendment to the Proposed Resolution on the Confidentiality of Executive Sessions of the Board of Education

On motion of Dr. Greenblatt seconded by Mrs. Zappone, the following resolution was adopted with Dr. Greenblatt, Mrs. Peyser, Mrs. Spencer, and Mrs. Zappone voting in the affirmative; Mr. Barse voting in the negative; Mr. Ewing abstaining (Mr. Lipson voting in the affirmative):

Resolved, That the proposed resolution on the confidentiality of executive session of the Board of Education be amended in the first Resolved by adding "including matters of land and site acquisitions or personnel and labor relations as permitted under Section 4-106(e) (2) of The Annotated Code of the Public General Laws of Maryland" after "executive session."

For the record Mr. Ewing stated: "If the intent here is to write a regulation and encourage the development of a law, the purpose of which action is to increase the degree to trust, this is the exact opposite way of going about this. What one does when one writes regulations and establishes penalties is to express distrust or mistrust and a lack of confidence in one's colleagues, and I don't think there is any misunderstanding about that. I think the public understands that, and I think that is what is going on here. Now if one wants to achieve mutual respect then one does it in different ways, not this way. I am going to end up voting for this although I have some grave reservation about it because I think the code of ethics part of it is worth having. The rest of it I think is, and I choose my words carefully, a paranoid reaction to a couple of events that don't deserve this kind of response."

There was Board agreement to editorially change the fourth WHEREAS by inserting "which states: Provision for statements of position or questions on points of order shall be made in open session following executive sessions."

Mr. Ewing moved that the question be divided into the first three Resolved clauses and then the last Resolved. Mr. Barse moved that it be divided clause by clause.
