

FY 2008 QUESTION NUMBER: 37

QUESTION:

Provide data on the performance of students attending the High School Plus program.

BUDGET PAGE REFERENCE: NA

ANSWER:

The High School Plus program began at Albert Einstein, John F. Kennedy, Rockville, and Wheaton high schools for semester 1 of the 2006-2007 school year. Because the focus of the program is on credit acquisition, there is no data on performance at this time. The Department of Shared Accountability will be conducting a program evaluation.
