

# Green Field Trips Elementary Schools

## Dickerson Generating Station

This plant generates its power from burning coal, as is the case in over 60% of the power plants in the US. The process over 5,000 tons of coal per day, which comes in via CSX rail-car. They perform tours of the plant for groups up to 35 at a time.

21200 Martinsburg Road  
Dickerson, Maryland 20842

(301) 601-6560 (7a.m-3p.m.) John D. Lewis

## Covanta Energy

Energy-from-Waste: The Covanta plant converts waste to energy. The proximity to the Dickerson Generating Station, makes this a convenient pairing for a one-day field trip.

21204 Martinsburg Road, Dickerson, MD 20842  
301 916-3037

*Because good planets are hard to find.*

## Montgomery County Recycling Center

(301) 417-1433 16105 Frederick Road

## Montgomery County Transfer Station

(301) 840-2370 16101 Frederick Road

Both Facilities offer tours Monday-Friday

**Audubon Naturalist Society** From birds to bugs, and water to the web of life, school programs that are guaranteed to get your students excited about science and learning. Experienced naturalist/teachers lead field trips and nature programs for your class that can be tailored to fit your curriculum. Program themes include birds,

plant life, habitats, life cycles and many more and are offered for public schools for grades pre-K through 8.

8940 Jones Mill Road  
Chevy Chase, MD 20815
