It is a small world and we can make a difference one person at a time. Living on the plateau of Addis Ababa, trekking on the slopes of the Himalayas, passing through the Panama Canal, driving the curves of the Majorcan mountain roads, enjoying the beaches of Phuket, standing on the volcanic rocks in Jakarta, shopping in the street markets of Seoul, riding the tube around London, standing on the steps of the Roman Colosseum, looking through the pillars of the Greek Acropolis...seem so distant and foreign, yet we're all so alike. Together, we can make our world a better place to live. It's our world, choose to conserve because a good planet is hard to find.... Information is power...data is what feeds information.
