

January 2011 - Recycling

Recycling Teams:

As we begin another new year, John Meyer, recycling technician and myself would like to take this opportunity to wish you a Happy New Year. Beginning this month, you will be receiving a **Monthly Recycling Update** of recycling related news to keep you informed. Please share this information with your recycling teams.

No Plastic bags: Please ensure that plastic bags are not placed in recycling dumpsters.

Locks: Please ensure that recycling dumpsters are locked at all times to avoid illegal dumping. The dumpster does not need to be unlocked on the day of your pick-up. The gravity locking bar on your dumpster will automatically unlock when the truck lifts it up to unload.

If you are doing any voluntary recycling at your school, please fill out MCPS Form 201-9 and send it back to SERT via PONY or fax to 240-314-1037.
