I am very happy to be working with the SERT team. As the newest member of the SERT team, I truly believe in what we are doing to improve the recycling effort in the county. I am happy to have the opportunity to work with the MCPS staff, students and community to increase our awareness and our efforts in becoming a greener society. My goal is to pass the best world possible into the hands of my two sons.

If you have any questions please contact SERT @
