School Energy and Recycling Team

John F. Kennedy High School Students Build Green School Club

John F. Kennedy High School Students (L-R)
Alfena Johnson, Brian Chambers, Amanda Dotson, Mary Guenther, and Jainaba Fye

Raising awareness with regard to the environment is the main objective for John F. Kennedy High School's (JFKHS) **Green Schools Club**. The club promoted and conducted a school wide poster contest to get the students excited and involved with their new mission. The **Green Schools Club** thought that by having student-made posters hanging throughout the school it would help increase their recycling rates and create awareness.

John F. Kennedy High School winning posters

Congratulations go to Alfena Johnson for winning the poster contest! Alfena created two beautiful posters encouraging others to recycle. The winning poster has become the official **Green Schools Club** poster this year.

SERT staff were invited out to participate in an awards ceremony where Alfena received a certificate as well as a small monetary gift.

Now that a winning poster has been selected and the prize given, the hope is that more students will be inspired to join the JFKHS **Green School Club** and help keep JFKHS **Green**.

Do you have a "SERT Flash" you would like to share about your SERT efforts? Please submit a photograph and paragraph about your team and you too can be featured in a future FLASH!
