School Energy and Recycling Team

Secrets to Success at Sherwood High School

Sherwood High School Green Team

How does Sherwood High School manage, coordinate, and achieve success in their green programs?

The answer...The Sherwood HS Green Team is 140 students strong!

They have identified clear roles and assigned student chapter leaders who dedicate themselves to specific projects. The Green Team has developed an outstanding organizational road map for success. Balancing and coordinating various green projects as they work together with their student team of over 140, makes the Sherwood High School Green Team very successful.

With solid support from Sherwood High School Principal, William Gregory, classroom teachers, Ms. Laura Dinerman and Ms. Britani Sartwell, and their student membership of over 100, they exhibit the SERT magic triangle of success.

SERT would like to celebrate the efforts of all Green Team leaders and members who work towards energy conservation, responsible recycling, and environmental projects such as, GreenKids Partnership, wetland restoration, environmental field trips, and the Bay Grasses in the Classes program.

The model at Sherwood HS benefits all involved, the students their community, and the environment.

Do you have a "SERT Flash" you would like to share about your SERT efforts? Please submit a photograph and paragraph about your team and you too can be featured in a future FLASH!
