

SERT Flash

School Energy and Recycling Team

Welcome

DJ Connelly, SERT Facilitator

The School Energy and Recycling Team (SERT) program would like to introduce our newest team member, DJ Connelly, who will serve as one of our SERT facilitators. Please join us in welcoming him to the SERT program. DJ comes to us from Seneca Valley High School where he served as a para educator and green team leader. He has experience with leading student teams, developing student-driven green projects, marketing and management, and building facility operations. Please help us utilize all of DJ's skills and ask him for creative ways to engage students into energy-aware behavior and how to operate your building efficiently.

As SERT facilitator, DJ will perform work involving system wide initiatives promoting responsible use of natural resources and environmental stewardship. He will be visiting schools this coming Fall to assist in engaging students and staff into responsible recycling practices, energy-aware behavior, and natural resource conservation through site visits, data collection and analysis, promotion of energy and recycling contests and activities, staff and student presentations, and participation with school based SERT/Green teams.

DJ's office will be located at Department of Facilities Management, SERT, 2096 Gaither Road, Suite 200, Rockville, MD 20850. However, DJ will be out in the field supporting and encouraging a culture of conservation in all Bethesda area schools. Please feel free to contact DJ @ 240-314-1097 or you can e-mail him at Donald_J_Connelly@mcpsmd.org.

Thank you for joining SERT in welcoming DJ to our team.

Do you have a "SERT Flash" you would like to share about your SERT efforts? Please submit a photograph and paragraph about your team and you too can be featured in a future FLASH!
