School Energy and Recycling Team

Seasonal Savings Spirit at Strawberry Knoll Elementary School

SERT Flash Stars

How many SERT supporters does it take to reduce your use? As many as you can recruit!

The administration, staff, and students at Strawberry Knoll Elementary School know how to save energy with spirit! By removing 24 mini-refrigerators this past summer, their team reduced its energy use and received a free gift from SERT. Greenschoolsfocus insulated lunch bags are available to those who agree to take home their mini-refrigerators in an effort to conserve energy. By using these lunch bags (made of recyclable material) instead of mini-refrigerators, Strawberry Knoll Elementary School will save close to \$5,000 in energy costs.

Is your school interested in receiving ["free" greenschoolsfocus.org lunch bags](http://greenschoolsfocus.org)? Please visit our website to learn more about this opportunity. Join the team.

If you are looking for additional energy savings strategies to implement in your school, please contact the SERT office for assistance – 240-314-1090.

Do you have a "SERT Flash" you would like to share about your SERT efforts? Please submit a photograph and paragraph about your team and you too can be featured in a future FLASH!
