

Randolph Depot

Thank you Mr. Maurice Wade!

Mr. Maurice Wade, maintenance electrician II, Randolph Depot, is dedicated to his job and to saving energy. Mr. Wade is helping MCPS save energy by installing electronic outside light time clocks. In the 2006-2007 academic year Mr. Wade and the electrician staff at the Randolph Depot replaced over 35 time clocks. Because of their efforts, the savings in electricity on any given night would be enough to run 544 homes for the same period of time.

When the Green Schools office first approached the Randolph Maintenance Depot with the new time clock technology, Mr. Wade immediately recognized the advantages of the new time clocks and embraced the replacement program whole heartedly. Mr. Wade took the initiative to research the time clocks and learn all he could about them. This included learning how to program and communicate with the time clocks through the use of computer software and a laptop computer.

Because of Mr. Wade's efforts to go above and beyond the normal call of duty in saving energy, the Green Schools office is pleased to call Mr. Wade a SERT Champion.
