

Student Directions for the Reading or Language Usage Test

Read to all students.

Look at your computer screen. Check to be sure that it has your name. If it does not, please raise your hand now.

Today you will be taking a test called Measures of Academic Progress, also called MAP, which is designed to show academic growth. Give this test your best effort.

This test has **52** questions for Language Usage and **42** questions for Reading. (*A Survey test will only have 20 questions.*) Use all of your knowledge and best test-taking skills to complete the test.

You will have enough time to read and answer all the questions. Some questions will be easy; others will be more difficult. Be sure to read the directions to each item first, then the problem, and finally read ALL of the answer choices. If you really do not know the answer to a question, use your best test-taking skills to eliminate some answer choices. Then choose the best answer of the ones that remain. You cannot skip questions.

There are different ways to choose your answer for each question. The BEST OPTION for most students is to use the mouse to click anywhere on the answer. If this is difficult for you to do, raise your hand and an adult will show you another way to select your answers.

There are two ways to move on to the next question. The BEST OPTION for most students is to use the mouse to click on the <Go On> button. The other option is to press the <Enter> key on the keyboard.

You may click on as many answers to a question as you like, but once you click <Go On> or press the <Enter> key, you are finished with that question. Your answer is locked into the system and you cannot change it. You also **cannot** go back to a previous question.

Sometimes, a reading passage may be too long to fit on the screen at the same time. If that is the case, be sure to use the scroll bar on the right hand side of the screen to scroll down so that the whole passage and matching question are displayed.

Sometimes you may see the same passage repeated with different questions. This is okay.

This probably will not ever happen, but should you come across a question that appears to be missing answers, questions, or instructions, raise your hand so we can help you.

The test will take about one hour to complete; however, it is not timed and you will be given time to finish.

When you come to the end of the test, your score will be displayed on the screen. It is very important that you do **not** press <Enter> or click any buttons. Please cover your screen by flipping down the paper on the top of your computer and read your book silently. A proctor will come over and set your station for the next student to use while others are finishing.

If you have any concerns once the test has started, raise your hand and one of the adults will come to you. The adults are not allowed to provide you with any additional information during the test. We cannot help you with any words.

I can now reread any part of the instructions if you have questions. Are there any questions?

You may begin by clicking the <Start Test> button.
