Maintaining RIA Staff Selection Lists

On some RIA Data Input pages are fields with a selection list of RIA staff. An example of such a field is the **Intake Staff** field on the Student Information page for selecting the RIA staff member who performed the intake for the student. Follow the instructions below to maintain these selection lists.

Adding RIA Staff to a Selection List

1. Log in to OASIS.
2. Search for *any* student record. You must search for a student record to be able to proceed with the next step.

3. At the top of the page in the tab bar, hover your mouse over the ENROLLMENT tab to display a menu.

4. On the menu, select **RIA**.
5. On the left of the page under Maintenance, click the **Employee Maintenance** link. The Employee Maintenance page will open.

7. In the **Intake**, **Cleared**, and **Transcript** fields, select either **Y** (yes) or **N** (no) to indicate whether the employee’s name is to be included in the selection list for the related field on an RIA Data Input page. The following table shows the location of the related fields.
