PROMETHEAN LEARNING COURSES

 <p>Level 1 - Foundation Skills course - FREE These courses have been developed to introduce the main features of our Activprimary and Activstudio software. To enroll on one of these courses you first need to create a new account. If you already have an account click here.</p> <p>Find out more... Activprimary Activstudio</p>	<p>Level 1 - Advanced Skills course These courses have been developed as a follow-up to the Foundation Skills Certificate and includes more of the advanced features of our software. If you wish to enroll for this course, please complete the order form.</p> <p>Find out more... Activprimary Activstudio</p>
--	--

4. Click on either Activstudio or Activprimary for Windows. A table of the courses will appear. Click on the course title (which is a link to begin the course—each topic is a link to that topic’s tutorial). Activprimary is recommended for use with students in grades K-2. All others should choose Activstudio.
