

Techmod 10 Printer Descriptions

Color Laserjet CM4730fsk

Description: The HP Color Laserjet CM4730fsk is a high volume networked color laser printer that has a scanner built in. With the scanner, users can scan paper documents and email them to themselves and others for digital storage and distribution, reducing copying and printing costs.

Recommended Locations: Main Office, Media Center

Recommended Monthly Print Volume: 5,000 - 9,000 pages

Maximum Print Speed: 31 ppm

Connectivity: Network, USB, Analog Fax

Other Features: Duplex, Scan to Email, Fax, Individual Color Cartridges

Color Laserjet CP2025x

Description: The CP2025x printer is a low volume color laser printer meant to provide the IDA with private access to a high quality color laser printer while printing confidential data. It has two trays for simultaneous letter and legal paper availability. The cost per page is relatively high, but requires less maintenance than inkjet printers and allows the larger color laser printer to remain in public areas.

Recommended Locations: IDA's Office

Recommended Monthly Print Volume: 750 - 2,000 pages

Maximum Print Speed: 21 ppm

Connectivity: Network, USB

Other Features: Duplex, Individual Color Cartridges

Laserjet M4345x

Description: The HP Laserjet M4345x is a high volume networked black and white laser printer that has a scanner built in. This has the highest speed and can handle the highest printing volume of all printers in TechMod.

Recommended Locations: Computer Labs, Media Center, Main Office, Department Offices

Recommended Monthly Print Volume: 5,000 - 20,000 pages

Maximum Print Speed: 45 ppm

Connectivity: Network, USB, Analog Fax

Other Features: Duplex, Scan to Email, Fax

Laserjet M3035

Description: The HP Laserjet M3035 is a medium volume networked black and white laser printer that has a scanner built in. This is a slower model than the M4345x and can handle a lower volume of pages per printer per month, but the lower cost allows us to provide more of these at the same cost as the M4345x.

Recommended Locations: Department Offices, Computer Labs, Media Center, Main Office

Recommended Monthly Print Volume: 2,000 - 6,000 pages

Maximum Print Speed: 35 ppm

Conenctivity: Network, USB

Other Features: Duplex, Scan to Email

Laserjet P1505

Description: The HP Laserjet P1505 is a personal black and white laser printer. It has a relatively high cost per page because of its size, but provides private access to high quality laser prints for administrators who work often on confidential information that can't be printed to a public printer.

Recommended Locations: Administrative Offices

Recommended Monthly Print Volume: 250 - 2,000 pages

Maximum Print Speed: 24 ppm

Conenctivity: USB

Other Features: None

Officejet Pro K5400

Description: The HP Officejet Pro K5400 is a personal color inkjet printer. It has a relatively high cost per page because of its color capabilities and high support costs, but provides private access to color prints for administrators that print confidential information or classroom teachers that require printing often during class.

Recommended Locations: Classrooms, Administrative Offices

Recommended Monthly Print Volume: 10 - 500 pages

Maximum Print Speed: 16 ppm

Conenctivity: USB

Other Features: Individual Color Cartridges
