

Have you heard the news...

Beginning in January 2007, ISBN numbers became 13 digit numbers instead of 10 digit numbers. ISBN numbers now begin with '978'. When identifying a book by ISBN number, disregard 978 and the last digit in the number. If the remaining 9 numbers match the edition you are searching for...you have the correct book!

Here is an example:

Old ISBN: 0-395-58537-6

New ISBN: 978-(0-395-58537)-5
