

Chapter 4

Recommended Actions and Planning Issues

Chapter 4 is organized alphabetically by high school cluster and consortia. Each section includes a map of the cluster service areas and tables containing enrollment, demographic, room use, and facilities information for individual schools. Capital projects recommended for the FY 2013 Capital Budget and the FY 2013–2018 Capital Improvements Program (CIP) are included. It is important to note that although cluster/consortia organization is used for the presentation of information, planning actions often cross cluster/consortia boundaries in order to meet program and facility needs for all students.

All schools are evaluated based on existing and planned program capacity. School system enrollment continues to grow, especially at the elementary school level. Over the next six years, enrollment is projected to increase by about 9,500 students. Although temporary overutilization of facilities can be accommodated with relocatable classrooms, long-term overutilization will require additional capacity to both elementary and secondary schools through classroom additions, modernizations, and new or reopened facilities. This year, MCPS houses about 8,000 students in 350 relocatable classrooms.

For each cluster and the Downcounty and Northeast consortia, information is presented within a common framework. Planning issues of a clusterwide nature are followed by a discussion of individual secondary and elementary schools with recommended capital projects or non-capital actions. All

clusters may not have clusterwide planning issues, and only schools with plans are discussed in each cluster section.

Following the narrative discussion of planning activities is a table labeled “Capital Projects” that summarizes all capital projects for that cluster or consortium. Four types of projects are identified under the “Type of Project” column. The types of projects are as follows:

- “Approved”—Project has an FY 2012 appropriation approved in the FY 2012 Capital Budget.
- “Recommended”—Project has an FY 2013 appropriation recommended in the FY 2013–2018 CIP.
- “Programmed”—Project has expenditures programmed in a future year of the CIP for planning and/or construction funds.
- “Proposed”—Project has facility planning funds approved in the FY 2012 Capital Budget or recommended in the FY 2013–2018 CIP for a feasibility study.

For each cluster and the two consortia, four summary tables and a bar graph are presented. The bar graph shows the effects of additions to capacity in the calculation of future utilization levels. The “Projected Enrollment and Available Capacity” table reflects the projected enrollment six years into the future for elementary and secondary schools and to the years 2021 and 2026 at the secondary level. Space availability is shown with approved CIP actions. This table also has a

“comments” section that contains a brief explanation of program or facility changes that will impact capacity within any given year. To assist readers, a glossary of abbreviations and terms used in the tables and notes is included on the previous page. A second table, titled “Demographic Characteristics of Schools, 2011–2012,” shows the racial and ethnic group composition percentages, the student participation in the Free and Reduced-price Meals System (FARMS) program, and the percentage of English for Speakers of Other Languages (ESOL) for each school for the 2011–2012 school year. This table also

displays the Mobility Rate (the number of entries and withdrawals during the 2010–2011 school year as compared to total enrollment) for the 2010–2011 school year. The “Room Use Table (School Year 2011–2012)” reflects detailed room use information for each school along with special education program information. The final table, titled “Facilities Characteristics of Schools 2011–2012,” shows facility information for each school.
