

MCPS Passenger Motor Carrier Quality Assurance Program

Approved Passenger Motor Carriers

(Updated November 2, 2009)

* Schools should arrange field trip transportation directly with commercial carriers from the following MCPS list of approved passenger motor carriers. This list is continually maintained and new carriers are added frequently.

* Local carriers that have either school buses or smaller vehicle inventory are marked with an "X".

* Carriers are required by ADA to provide service with wheelchair lift-equipped vehicles upon demand when given at least 48-hour notice.

* Schools scheduling tour packages may use tour companies that are not on this list, but the tour company must agree to use a commercial bus carrier from this list!

* Questions, comments, and suggestions for improving the MCPS Passenger Motor Carrier Quality Assurance Program are welcome and should be directed to Philip McGaughey, director, Division of Procurement, by email at Philip_J_McGaughey@mcpsmd.org or by phone at 301-279-3555.

* MCPS has partnered with Consolidated Safety Services to assist us in the approval process. [Click Here](#) for contact information.
