MEMORANDUM

To: Members of the Board of Education

From: Jerry D. Weast, Superintendent of Schools

Subject: Report on *Honors and Advanced Placement Course Enrollment 2004–2005*

A copy of the report, *Honors and Advanced Placement Course Enrollment 2004–2005*, is attached for your review and information. Compared to last year, enrollment in at least one honors or Advanced Placement course increased for all students and for all groups of students. Additionally, all high schools increased the overall percent of students enrolled in at least one honors or Advanced Placement course. Overall, 67 percent of last year's high school students were enrolled in such courses, representing more than 28,900 students among the system's 24 high schools. The rate of enrollment has continued to increase over the last four years (58 percent in 2000–2001), even as the high school enrollment has grown from 38,000 students to more than 43,300 students last year.

As additional information becomes available, you will be kept informed about the progress of enrollment in our most challenging courses.

2004–2005 Enrollment in at Least One Honors or Advanced Placement Course

Continued progress was made during the 2004–2005 school year in increasing the enrollment of students in at least one honors or Advanced Placement (AP) course in high school. The Montgomery County Public Schools (MCPS) seeks to increase enrollment in and performance of all students in gifted, honors, Advanced Placement (AP), and other advanced programs as part of ongoing efforts to provide an effective instructional program—one of four major goals identified in *Our Call to Action: Pursuit of Excellence*. This report measures the progress all high schools have made toward increasing the enrollment of students in at least one honors or AP course.

MCPS has undertaken efforts designed to prepare and encourage more students to stretch themselves academically and to take the most challenging courses. Various systemwide and individual school initiatives have opened the enrollment and encouraged more diverse student participation in honors and AP courses. Initiatives include creating a positive school climate that communicates high expectations for all students, motivating students to participate in challenging coursework, and removing barriers to the recruitment and selection of students for enrollment in honors and AP courses.

Findings

Compared to the prior year, 2004–2005 enrollment in at least one honors or AP course increased for all students and for all groups of students. (See Table 1.) The greatest increase was seen among limited English proficient students, whose enrollment in at least one honors or AP course increased by 7.7 percentage points. The percent of Hispanic, African American, and students receiving Free and Reduced Meals (FARMS) service who were enrolled in at least one honors or AP course increased by 3.0, 2.3, and 1.9 percentage points, respectively. The percent of White, Asian American, and special education students enrolled in at least one honors or AP course increased by 1.2, 0.8 and 0.6 percentage points, respectively.

During 2004–2005, the percentage of all students and all groups of students enrolled in at least one honors or AP course was the highest since the baseline year of 2000–2001. (See Table 2.) The enrollment of limited English proficient students showed the greatest increase, nearly doubling from 16.9 percent to 32.3 percent. Over the four year period, the enrollment of FARMS, Hispanic, and African American students in one honors or AP course rose by approximately 12 percentage points; the enrollment of White students rose by more than 10 percentage points; the enrollment of Asian American students rose by nearly 9 percentage points; and the enrollment of special education students increased by more than 5 percentage points.

Additionally, all 23 high schools showed an increase in the enrollment of all students in at least one honors or AP course between the baseline years of 2000–2001 and 2004–2005. (See Table 3.) Seven schools increased the enrollment of all students between 0.1 and 5.0 percentage points; 7 schools increased enrollment between 5.1 and 10.0 percentage points; 5 schools increased enrollment between 10.1 and 15.0 percentage points; 3 schools increased enrollment between 15.1 and 20.0 percentage points; and 1 school showed an increase of more than 20 percentage points.
