

May 2011

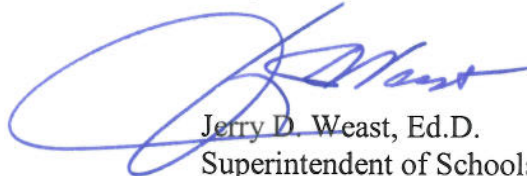

Dear Parent(s) or Guardian(s):

I am writing to inform you of your child's results on the *TerraNova* Second Edition (TN/2) assessments, which were administered in April 2011 to students in Grade 2. The assessments included reading, language, language mechanics, mathematics, and math computation subtests. The enclosed *Individual Profile Report* informs you of your child's performance on the TN/2. To help you understand your child's test results, a score interpretation guide also is enclosed.

The TN/2 assessment is a multiple-choice test that helps us understand your child's strengths and provides school staff with valuable information to enhance instructional programming in reading, language, language mechanics, mathematics, and math computation to meet your child's needs. The TN/2 is a norm-referenced assessment, which means it also provides information about your child's performance compared with his or her peers across the United States.

Please contact your child's school if you have questions about the TN/2 assessments or concerns about your child's performance.

Respectfully,

Jerry D. Weast, Ed.D.
Superintendent of Schools
