

Friendly Fringees

This activity is a great ice breaker for students as it gives them an "excuse" to talk to a person they do not know.

How Does it Work?

Introduce yourself to someone whom you do not know. Tell them your name, where you go to school, etc. Tie one of your "fringees" from your pom-pom around their neck string and have your new friend tie one of their fringees around your neck string! If you use all of your fringees from your pom-pom by the end of allocated time, you should have met at least fifty new friends!
