Dear Students, Parents, and Educators:

Summer Search is a Montgomery County Public Schools service that provides information about a variety of summer educational opportunities available for students at all grade levels. The Summer Search: Expanding Educational Horizons catalog is an excellent resource for families to use to identify engaging and challenging summer programs.

Every year, many of our students enjoy participating in summer enrichment programs listed in the catalog. Summer Search programs help students develop leadership skills, broaden personal and career interests, and enhance the educational experience they received during the school year. Programs include internships, college courses, training programs, summer camps, and other study opportunities.

Summer Search is part of the school system's commitment to provide the highest quality educational opportunities for all students. I trust that you will find this Summer Search catalog to be a useful tool for identifying a program designed to broaden knowledge in a particular area of interest, improve social and academic skills, and provide a unique summer experience.

Respectfully,

A handwritten signature in black ink, appearing to read "J. D. Weast", with a large, sweeping flourish extending to the right.

Jerry D. Weast, Ed.D.

Superintendent of Schools

Individual Program Descriptions	1

How to Use the Booklet

To make your use of this booklet easier, each program is given a number and is described as follows:

0

Name of the program

Brief description

When: Dates the program is offered

Where: Location of the program

Who: Target population and criteria for entrance

Cost: Price of the program

Aid: Financial and/or scholarship help available

Deadline: When your application is due

Contact: Person or program to call or write for further information
Telephone/fax/e-mail/Web address

Tips

1. The index (page iv) categorizes the programs by content area
2. Each program is listed by program number (on left)
3. An asterisk (*) denotes possible college credit
4. For additional information or questions, please contact—

The Division of Family and Community Partnerships
Montgomery County Public Schools
451 Hungerford Dr., Suite 508

CAACEE Summer Language and Cultural Tour Camp

The 2008 Summer and Cultural Tour Camp in Shanghai provides participants with an effective Chinese language learning opportunity and a culture-oriented tour program in the largest city of China. There are four major sections during the entire camp: Language Learning, Culture Tour, Sports, and Hand-on Craft Activities. Living on the campus of Shanghai Jianqiao College, a safe and convenient location, participants will be able to enjoy the city highlights and network with their Chinese language partners in school. The camp program starts from July 1 to August 30, 2008. Students have the options of two-, three-, four- or six-week programs. Parents are welcome to join their students with the same discounted price.

When: July 1—August 30, 2008

Where: Shanghai, China

Who: Middle/High School and College Students

Cost: \$1200–\$3250 (2 to 6 weeks)

Aid: None

Deadline: May 30, 2008

Contact: **Shermian Lim, Director of Student Activities**

One Research Court, Suite 450

Rockville, MD 20852

Camp Chewonki & Wilderness Expeditions

Chewonki offers a summer camp for boys, a wilderness camp for girls, and co-ed wilderness expeditions for teenagers. Our boys' camp is located on a beautiful 400-acre campus on the coast of Maine. Boys may choose from ten-day, three-week or seven-week sessions. Our brand-new girls camp is located in Maine's pristine and rustic North Woods. All programs encourage campers to gain an appreciation for the natural world through first-hand experience and master the challenges of living in a small diverse community. Chewonki offers a variety of wilderness trips through the woods and waters of Maine and Canada for teenagers. Participants may choose from backpacking, sailing, canoeing, sea kayaking, and whitewater kayaking trips.

When: Mid-June to mid-August

Where: The Chewonki Foundation, Wiscasset, Maine

Who: Boys ages 8–17; Girls ages 8–17; Coed ages 13–17

Cost: \$2,000–\$6,200

23

Carleton College Summer Writing Program

Designed for college-bound high school juniors with strong reading and writing abilities, the Summer Writing Program teaches students how to compose academic papers similar to those they will write in college. Each day begins with a lively discussion of literature in a class led by a Carleton professor. Students will read both contemporary and traditional literature, from classic texts to a variety of modern short stories, essays, and poems. Students will also participate in discussion sections and a daily writing workshop that will provide them with opportunities to focus on their own writing process. Students will be given written evaluations of their three main papers. Academic college credit (6 Carleton credit hours) will be awarded to those participants who successfully complete the program.

When: July 6–25, 2008

Where: Carleton College, Northfield, Minnesota

Who: Males and females entering Grade 12 in Fall 2008

Cost: Approximately \$2,295

Aid: A limited number of scholarships are available
(April 1, 2008 application deadline)

Center for the Gifted and Talented

The Enrichment Centers, Inc.'s Gifted and Talented program focuses on the special concerns of gifted children and their families. Our approach is two-fold: (1) tap the child's potential, (2) provide support and mentoring. A dynamic curriculum and specially trained staff are the primary tools we utilize to motivate and challenge the child, based on individual needs. Activities and subjects include reading, writing, organizational skills, social studies, math, science, nature, sports, computer, art, music, theatre, foreign languages, and SAT preparation.

When: Full-day (9:00a.m.–3:00p.m.), half-day (9:00a.m.–12:00p.m., 12:00p.m.–3:00p.m.), extended-day available

Year-round after-school programs at your school, and individually in your home, or in a designated site.

Where: Sites throughout Maryland, DC, and Virginia

Who: Ages 4–18

Cost: Costs vary from \$295–\$495/week depending on number of hours and registration dates

Aid: Available based on need

Customized Tutoring & Enrichment

We can come to you—or you can come to us, at one of our centers throughout Maryland, D.C. and Northern Virginia. Our staff members work with students individually or in small customized groups to address a child's academic and creative needs. We encourage parents to participate in designing their child's customized program. We also offer a Jump Start Back-to-School program, which reviews work from the previous school year and prepares for the next. Our empowered learning program emphasizes organization, study skills, self-discipline, motivation and focusing. Our Language Immersion Programs convey language skills in a fun and active manner—the natural way all humans learn to speak—utilizing music, art and other activities to bring language alive.

When: Summer: Full-day (9:00a.m.–3:00p.m.),
half-day (9:00a.m.–12:00 noon, 12:00 noon–3:00p.m.),
extended hours available.

Empowered Learning Program

The Empowered Learning Program offers students the tools necessary to make successful life choices: setting goals, taking on responsibility, and meeting and executing commitments. We teach time management, organizational and study skills. In the summer program, students choose, learn and apply strategies helping set and reach goals, then use these tools in other facets of life and in schoolwork. The by-product: self-confidence and enhanced performance.

When: Summer full-day (9:00a.m.–3:00p.m.),
half-day (9:00a.m.–12:00 noon or 12:00 noon–3:00p.m.),
extended hours available
Year-round after-school programs at your school, and individually in your home, or in a designated site.
Where: Sites throughout Maryland, DC, and Northern Virginia
Who: Children ages 4–18
Cost: Costs vary from \$295–\$495/week depending on number of hours and registration dates

GapBuster Learning Center, Inc. "Building Scholars for the Future"

This full day program offers small group settings for students to preview material for the upcoming school year. The program focuses on academic enrichment in the areas of mathematics and language arts. We focus on the unique individuality of each child and build a dynamic program designed to enhance each student's skills and talents. We offer 2.5 hours of Language Arts and 2.5 hours of Mathematic instruction along with various Fine Arts classes at mid day. The primary goals of GBLC are:

- Improve participants' academic success
- Improve participants' math abilities
- Improve participants' writing skills
- Improve participants' reading comprehension skills
- Improve participants' school preparedness
- Prepare students for a brighter academic future

George Washington University Summer Scholars Pre-college Program

The George Washington University offers two programs for academically motivated high school students: ten-day minicourses and a six-week pre-college program. The minicourses are intensive, highly interactive seminars in topics such as law and evidence, photojournalism, election politics, and engineering. The six-week pre-college program offers qualified high school juniors the opportunity to enroll in challenging undergraduate courses for credit while previewing an authentic college experience. An Applied Pre-Engineering Experience (APEX) option is open to students interested in the sciences and engineering fields. Summer Scholars also enroll in a writing course that focuses on honing critical thinking skills through thematically linked reading and writing assignments. Academic exploration, college life, and admissions and enrichment programs are included. Residential and commuter options are available for both programs.

When: 10-Day Minicourses: Mid-June; 6-Week
Pre-college Program: Early July-Mid-August

Where: The George Washington University, Washington, DC

Who: 10-Day Minicourses: grades 9–11

6-Week. Pre-college Program: juniors only

Cost: 10-Day Minicourses (Law and Evidence, Applied Engineering,
Election Politics): \$2,300
Photojournalism: \$2,450

6-Week. Pre-college Program (General Courses): \$5,810

APEX Option: \$4,959

Aid: Limited need-based assistance for 6-wk program only. Financial
aid deadline is April 1. Priority is given to early applicants

Deadline: Applications are accepted until May 15th pending space
availability. Early applications are encouraged as classes fill
quickly

63

Georgetown University Fundamentals of Business: Leadership in A Global Economy

This intensive five-week program introduces you to virtually every aspect of business leadership and provides a solid grounding in topics from accounting and finance to strategy, marketing, and organizational planning and behavior. Earn 3 college credits as you study with professors from Georgetown University's prestigious McDonough School of Business and leading Washington-area business experts.

In the classroom, learn skills like those employed by the Georgetown students who operate the largest student-owned corporation in the country. In the field, visit leading area corporations and gain firsthand knowledge of business politics and executive management. When taken with a second summer course of your choice, Fundamentals of Business gives you an exceptional foundation for college and a future career in business. Students may live on campus or commute.

When: July 6—August 8, 2008

Where: Georgetown University

Who: Students completing Grade 10 or 11

Cost: Tuition: \$965 per credit; Housing \$782; Meal plan: \$810; Pre-college fee for all students: \$375.

*Additional book charges apply

* Room and meal plan fees are estimated and optional.

Aid: Limited scholarships are available. Please contact our office for more information

64

Georgetown University International Relations Program for High School Students

Georgetown University is renowned as a center of international dialogue, a venue that international leaders often choose to state their positions and calls for action. International Relations students explore complex global issues and the forces that drive them in Washington, learning from distinguished Georgetown faculty and prominent guest speakers who themselves have been key players in international diplomacy and crisis management. Your course of study includes an array of topics ranging from security and economics to U.S. foreign policy, international law, and ethics. Field trips take you to a number of Washington institutions that shape foreign policy, including Congress and foreign embassies. Learn how to think about issues, analyze international dynamics, project possible outcomes, and test your new skills as a decision maker in an international crisis simulation.

When: July 13–30, 2008

Where: Georgetown University

Who: Students who have completed Grades 9, 10, or 11 with an interest in International Relations

Cost: \$1,700 including room, meal plan, and select recreational activities; \$1,275 for students living at home

Aid: Limited scholarships are available. Please contact our office for more information

Deadline: Applications are accepted on a rolling basis.

65

Georgetown University Summer College for High School Students

This five-week program offers outstanding high school students to earn up to 12 college credits from Georgetown University. At Georgetown University's Summer College, academically gifted high school students have the unique opportunity to be "Hoyas" for the summer—to live on campus, attend classes side by side with undergraduate students, and learn from Georgetown's distinguished faculty.

Choose from more than 100 courses in areas of study including chemistry, biology, physics, precalculus, calculus, statistics, history, art, music, theater, English, foreign language courses, and more. Imagine how far ahead you will be by starting your freshman year of college already having earned 12 credits from Georgetown. By summer's end, you will have gained an academic edge through mastery of college-level material and an impressive credential for your high school transcript and college applications. Students may live on campus or commute.

When: 1st session: June 1—July 3, 2008;
2nd session: July 6—August 8, 2008

Where: Georgetown University

Who: Rising Grade 11 or 12

Cost: Resident tuition \$965 per credit; housing \$782; meal plan \$810;
Pre-college fee for all students: \$375
* Additional book charges apply
* Room and meal plan fees are estimated and optional.

Aid: Limited scholarships are available. Please contact our office for more information.

Language Tutoring (Italian, German, Russian, Portuguese, Hindi, Arabic, English as a Second Language, American Sign Language, Spanish, French, Chinese, Japanese and more)

Small group language immersion classes for Spanish, French, Japanese, Chinese, and English as a Second Language. We offer individual tutoring in Italian, German, Russian, Portuguese, Hindi, Arabic, American Sign Language, Spanish, French, Chinese, Japanese, English as a Second Language, and more. We provide students with an exciting, stimulating, and effective way to learn a language. We customize our language tutoring to fit your wishes of learning to speak, read, write, or all three—whichever you prefer! We also provide language immersion classes and programs for English, Spanish, French, Japanese, and Chinese. Our immersion classes use Total Physical Response, the world's premier language teaching method for learning a language that is fun and proven to work! Students learn the language as a native speaker would: through life experiences, games, role-playing, and field trips. Small group instruction encourages students to learn from peers.

Johns Hopkins University— Engineering Innovation

Johns Hopkins' Engineering Innovation's course "What is Engineering?" offers the opportunity to earn 3 college credits while exploring cutting edge educational and career options. In this four week class, teams of students take part in simulations and laboratory experiments, attend college level lectures, carry out team projects and learn from professional engineers about careers, internship opportunities and college choices. Students learn how to think and problem solve like engineers. Students completing the course with an "A" or "B" will received 3 transferable college credits from JHU.

When: June 30—July 25, 2008 9a.m.–3p.m. daily No class on July 4

Where: Maryland—Rockville, Columbia and Baltimore locations

Who: Rising Juniors and Seniors; Incoming College Freshman

Cost: \$1,830 tuition, labs, and fees

Aid: Limited—need based

Johns Hopkins University Summer Programs

Expanding your horizons and expressing your interests are at the core of the Summer Programs. You choose the course(s) and design the summer experience that fits what you want to do. You do the challenging work and have fun along the way. To prospective colleges and universities, you've established yourself as a serious student who can make it at one of the premier educational institutions in the world.

When: July 2—August 3, 2008

Where: Johns Hopkins University

Who: To be eligible for the Pre-College Summer Program, you must be at least 15 years old, have completed your sophomore, junior, or senior year of high school, and have achieved at least a 3.0 grade point average (on a 4.0 scale) by the summer 2008. Outstanding students who are entering their sophomore year and who are 15 may also apply.

Cost: \$5,920—Pre-College residential students for two courses, room and board. This includes an activities fee. Residential students are required to maintain a two-course load. \$570 per semester credit for Pre-College commuter students, plus \$100 activities fee. \$50 nonrefundable application fee

Aid: Financial aid is very limited

Deadline: Residential application deadline—May 4, 2008; Commuter application deadline—June 20, 2008

Jump Start Back-to-School Program

Our tutors and mentors provide a bridge between summer activities and the upcoming school year—and give children the "jump" or "running start" they often need during the summer. Students review material from the previous school year to build on new material and skills for the next year. We can help ease the transition from elementary to middle school, middle to high school, and high school to college.

When: Summer: full-day (9:00a.m.–3:00p.m.),
half-day (9:00a.m.–12:00 noon or 12:00 noon–3:00p.m.),
extended hours available

Where: Sites throughout Maryland, DC, and Virginia

Who: Children ages 4–18

Cost: Costs vary from \$295–\$495/week depending on number of hours and registration dates

Kamp A-Kom-Plish

Kamp A-Kom-Plish is a nonprofit, inclusive sleep-away camp for children with and without disabilities. As a first-time camper specialist, the close-knit community provides a supportive atmosphere and plenty of personal attention for each camper. The six-day camp sessions promote acceptance through mutual respect and cooperation. The program allows campers to build self-esteem while teaching community living skills and a love for the outdoors. Kamp-A-Kom-Plish also provides a Day Camp program and specialized programs for teens and horse lovers. Inquire about our Terrific Teen program or Equestrian Program.

When: June 22–July 25

Where: Kamp-A-Kom-Plish, Charles County MD

Who: Campers ages 8–16, with and without disabilities

Aid: Financial aid available

Deadline: Rolling Admissions

Levine School of Music–Music & Arts Day Camps

The Levine School's Music and Arts Day Camps are grounded in the same philosophy as our Early Childhood Music program: we nurture the total musical child in a supportive and stimulating environment. Through singing, dancing, playing instruments and sharing artistic experiences, children develop skills for creative expression and aesthetic awareness. This year our theme is "Around the World in 80 Days." Each session culminates in a presentation featuring campers' art and musical and dance performances. Apprentice positions are available for teenagers entering Grade 7 and older.

When: Session I: June 23—July 11
Session II: July 14—August 1
Full Day (9:30a.m.–3:30p.m.)
Half Day (9:30a.m.–1:00p.m.)
Extended a.m. (8:00a.m.–9:30a.m.)
Extended p.m. (3:30p.m.–5:00p.m.)

MIT Minority Introduction to Engineering, and Science (MITES) Program

MITES is a rigorous six-week summer program designed to introduce rising underrepresented minority high school students from underrepresented and underserved communities to curricula and careers in engineering, and science. Participants are selected from a nationwide pool of applicants who are juniors in high school. Native Americans, African Americans, and Hispanic Americans are encouraged to apply; others are welcome to apply. The students selected for the program spend six weeks at Massachusetts Institute of Technology (MIT) totally immersed in campus life. Classroom work centers on math, physics, biochemistry/chemistry, engineering design, and writing, with daily assignments and periodic exams. The coursework is all designed to help students develop scientific and engineering skills in a premier university environment. Also scheduled are presentations by MIT engineering and science faculty, practicing engineers, scientists; graduate students; and by college admissions, financial aid, and career counselors. Trips to industrial and laboratory sites and to the lighter and more cultural side of local life are scheduled.

When: June 18–August 2, 2008

Where: Massachusetts Institute of Technology (MIT)

Who: Rising seniors

Cost: No cost except for transportation to and from MIT and incidental expenses

Aid: None

Deadline: Postmarked by February 1, 2008. Must include transcript, personal essays, recommendations, GPA, ACT, PSAT, SAT, proof of U.S. citizenship or copy of permanent residency

Contact: **Dedric A. Carter, PhD.**

113

Montgomery County Public Schools Summer High School Internship Program

This program is for students who are looking to gain firsthand experience in a career field of their choice. Reliable, motivated students with excellent academic skills and attendance are encouraged to apply. Students must provide their own transportation and be able to learn independently in a professional workplace setting. Some employers may require proof of citizenship and/or ability to work in the United States. The Summer High School Internship Program consists of two programs: the exploratory and the specialized internship programs. The Exploratory Internship Program is a half-day program where interns earn 0.5 credits, four hours daily, for five weeks during the summer. Students accepted in this program participate in an orientation and group seminars. Seminar activities include sharing workplace experiences, reviewing progress, clarifying career goals, and refining workplace skills. The Specialized Internship Program: is a full-day program where interns earn one credit, eight hours a day for five weeks. This program also has an orientation and provides group seminars to share workplace experiences and review processes.

When: Five weeks during the summer

Where: Different work sites

Who: Students must have completed Grade 10 or 11

Cost: Summer school tuition

Aid: None

Deadline: May 1 each year. Check with office for specific date

North Carolina State University Young Investigators' Summer Program in Nuclear Technology and Applications

Interested in the role that nuclear energy and other nuclear techniques play in solving everyday problems? Then join NC State's Department of Nuclear Engineering in July! Through a combination of group projects, labs, lectures, guest speakers, and field trips, you will answer such questions as:

- How can we develop energy sources for the U.S. and beyond?
- How can we detect very low concentrations of pollutants in the environment?
- How are nuclear methods revolutionizing medical diagnostics and treatment?

When: July 7-25, 2008 (group activity on July 4)

Where: North Carolina State University, Raleigh, North Carolina

Who: High school rising juniors, rising seniors, & graduating seniors

Cost: \$900 for 3 weeks (includes room, meals, field trips & some extracurricular activities)

Aid: Need-based scholarships available (supporting documentation needed)

Deadline: For full consideration, please send completed information by April 1st. Those applications received after April 1st will be considered as well—send an e-mail message stating your application is on the way if past the April 1st deadline. Notification begins April 30th and will continue until the program is full

Summer Camps on the River

A specialty recreational boarding camp featuring sailing, fishing, crew/rowing, or adventure based marine science camps. All our camps are perfect for beginner to experienced campers. Evenings take full advantage of the excellent facilities of the independent boarding school on which we are based. The Rappahannock River is the focus of our activities. We also utilize the athletic facilities at our campus. Weekend activities offer entertainment both on and off campus including trips to local theme parks. We are a coed camp for ages 9 to 17. See information and an application on the web at www.christchurchschool.org.

When: June 15–July 12

Where: Christchurch, Virginia on the Rappahannock River

Who: Ages 9–17

Cost: \$800–\$2,000

Aid: No

Deadline: May 15, 2008

Contact: Dan Hayes

49 Seahorse Lane
Christchurch, VA 23031

Telephone: 804-758-2306

Fax: 804-758-4780

131

Summer Camps operated by Montgomery County Department of Recreation

Over 60 camps are available in Montgomery County that are fun, safe, convenient, and affordable. Little People Centers (ages 4–5) offer an exciting first taste of summer camps. Art camps (ages 6–16) provide opportunities to develop children's creativity. Sports camps (ages 6–16) provide a mix of sports and activities for high energy kids. Outdoor/Nature Camps (ages 9–13) combine nature with a variety of outdoor games and activities including canoeing. There are also a number of one-of-a-kind camps such as Exploration in Science (ages 6–8), that provide curious kids with science fun; On-the-Go (ages 8–12) that offers a nonstop schedule of midday trips with one session of high adventure trips; Creative Theatre (ages 9–12), Break-into-Broadway (ages 6–8) and Center Stage (ages 9–12) give campers a taste of music and theatrical production and performance; Camp Imagination (ages 5–8) provide days filled with a variety of camp activities and plenty of fun. All camps (with the exception of Little People Centers) include swimming, field trips, and the option of an extended camp. We take FUN seriously!

When: June 16–August 8, 2008

Where: Convenient locations throughout Montgomery County

Who: Ages 4–16

Cost: Varies for each camp

Aid: Both therapeutic camps and inclusion in general recreation camps are available. Call 240-777-4915 to discuss your child's needs

Deadline: Camps fill up quickly on a first-come/first-serve basis, so register early

Telephone: 240-777-6870

132

Summer Enrichment Programs

Every week, students work on fun new projects. Examples would be to study a butterfly from the point of view of nature — biology, ecology, physics, art, and the concept of metamorphosis would be explored. All activities are age appropriate. Activities include academic subjects such as reading, writing, mathematics, and science, and creative activities such as art, drama, and dance. Students work in groups, make friends, and learn how to cooperate to complete a task. Full- and half-days are available. A half day of the Summer Enrichment Project can be combined with our customized or individual programs for a full day of fun and learning!

When: Summer: Full-day (9:00a.m.–3:00p.m.), half-day (9:00a.m.–12:00 noon, 12:00 noon–3:00p.m.), extended-day available

Year-round after-school programs at your school, and individually in your home, or at a designated site.

Where: Sites throughout Maryland, DC, and Virginia

Who: Children ages 3–18

Cost: Costs vary from \$195–\$235/week depending on number of hours and registration dates

Aid: Available based on need

Deadline: Rolling admissions—register early to guarantee a place

Summer Institute for the Gifted

Summer Institute for the Gifted (SIG) offers three-week residential and day programs at prestigious colleges and universities for academically gifted students! Now in our 24th year, SIG continues to provide gifted students in grades K–12 with an exciting and challenging summer experience. The program combines remarkable academic learning experiences with social and recreational opportunities. The residential programs include evening entertainment, weekend trips, creativity workshops, and numerous social activities. SIG gives students the opportunity to engage with other students who have similar abilities and interests.

When: 3-week sessions run June 21–August 16

Where: Amherst College, Bryn Mawr College, Emory University, Princeton University, University of Michigan, University of Texas, UC Berkeley, UCLA, Vassar College; Day programs at Bryn Mawr, Fairfield University, Manhattanville College, Stuart Country Day School and Moorestown Friends School

Who: Kindergarten–Grade 12

Cost: Residential \$3,995 to \$4,595, Day \$1,895

Aid: Financial aid available; must apply before April 15 for financial assistance

Deadline: May 1, 2008

Summer Math Packet Camp by Peer2Peer Tutors

Peer2Peer Tutors will be holding its second annual Summer Math Packet Camp available throughout the summer. Each year, MCPS schools assign math packets that exceed 15 pages of materials. Peer2Peer Tutors eliminates the stress and restores the learning. Your child will not only complete the math packet correctly in one week, but will also have detailed notes of each concept covered in the packet. Camp customers will receive our best rate on one-to-one tutoring should you want a tutor to come to your home and refresh your child on the math concepts. Get it done and get it done early with Peer2Peer Tutors.

When: June–August. Four 1-week, half-day (9:00 a.m.–12:00 noon)

Where: Julius West Middle School

Who: Rising Grade 3–12

Cost: \$225 per week. Sibling discount available.

Aid: Available based on need

Deadline: Early April strongly encouraged

Contact: **Erik Kimel, Director**

TLC's Summer Programs

TLC's Summer Programs (including Camp Littlefoot) are for children ages 3–13 and high school students in Grades 9–12, who have special needs in the areas of speech, language, perceptual motor, sensory processing, and/or academic development. The Speech-Language Program is designed for young children ages 3–7 who have a primary deficit in the speech and language area. The Sensory Integration Program: Friends in Motion is intended for children ages 5–9 who are experiencing sensory processing and motor planning difficulties. The Learning Enrichment Program provides students ages 5–13 with the opportunity to review and practice in academic content areas through a creative thematic approach. The Katherine Thomas School High Program is open to students entering Grades 9–12 in fall 2007. High school students may attend a half-day program of academic classes, or a full-day which includes a job internship.

When: June 23–August 1, 2008

Where: 9975 Medical Center Drive, Rockville, Maryland

Who: Ages 3–13, and high school Grades 9–12

Cost: Program costs varies: \$239–\$468 per week (Costs subject to increase for Summer 2008)

Aid: Limited

Deadline: June 1, 2008

Takoma SportsCamps

Takoma SportsCamps' is in its 12th year of providing a full-day SportsCamps that immerses campers in one sport per week. There's lots of practice, lots of playing time, and lots of fun so kids have a great time and raise their skills considerably. Mornings include warmups, skills stations, and games. After lunch and videos, campers and staff challenge each other with sports trivia or "Stump the Coach." Afternoon games are part of a weeklong tournament. Every player competes in each event of Friday's Olympics as well as tournament playoff games.

When: 9:00–3:30 (extended care is available)
 Takoma Baseball Camp (coed) June 16–20
 Takoma Baseball Camp (coed) June 23–27
 Takoma Basketball Camp (coed) June 30–July 3
 Takoma Basketball Camp (coed) July 16–20
 Takoma Softball Camp (girls) July 2–6

Where: Takoma Park Middle School
 7611 Piney Branch Road, Takoma Park, MD

Who: For baseball camp: ages 6–14 (by January 1, 2008)
 For softball camp: ages 7–16
 For basketball camp: 7–14

Cost: \$200 per week for Baseball, Softball or Basketball Camp Week 2,
 \$160 for Basketball Camp week 1
 Early registration before May 30, deduct \$15 per week

Aid: Available based on need

Deadline: Registration is accepted on a first-come, first-served basis.

Tufts University Cummings School of Veterinary Medicine

Adventures in Veterinary Medicine (AVM) is a career exploration program for students who like animals, enjoy science, and are interested in finding out more about what it takes to be a veterinarian. Students participate in lectures from the clinical faculty at the Tufts Cummings Veterinary School, have hands-on activities with animals, and are assigned to clinical rotations where they follow 4th year students in the hospital. AVM has both residential and day programs available for high school students. In addition, we have middle school programs, college programs, and adult programs. We accept students for the summer session of 2007 on November 1, 2007.

When: Middle school sessions: April 21—25; June 16—20; June 23—27

High school sessions: Residential and weekend July 6—18 ;
July 20—August 1; Weekday August 4—15

College sessions: June 2—6; June 9—13 (9:00a.m.-4:00p.m.,
no housing available)

Adult session: May 5—9 (9:00a.m.-4:00p.m.,
no housing available)

Where: Tufts Cummings School of Veterinary Medicine
North Grafton, Massachusetts

Who: Middle school, high school, college, and adults

Cost: Middle school sessions: \$575; College and Adult sessions: \$950;
High school ranges from \$1750 (day) to \$2525 (residential)

Deadline: Accepted on a rolling basis; applications available online
November 1, 2007

145

University of Dayton Women in Engineering Summer Camp

This six-day residential program sponsored by the University of Dayton introduces high school girls to the wide range of career opportunities in engineering. Participants experience a total immersion into the world of engineering with 18 hours of classroom activities taught by School of Engineering Faculty and/or practicing engineers. Throughout the week, they gain an understanding of chemical, civil, electrical, computer, and mechanical engineering, as well as engineering technology. The participants also attend challenging evening sessions in areas such as nanotechnology, inventions and up-and-coming technology applications. The young women enjoy an evening of dinner with an engineer and hear from professional women engineers who are willing to share and ready to encourage. One day of the camp is spent at a sponsoring industry observing engineers. The 2008 camp will mark the program's 35th anniversary.

When: July 13—18, 2008

Where: The University of Dayton

Who: Girls entering Grades 10–12

Cost: \$400

Aid: Need-based scholarships available dependent upon funding

Deadline: June 2, 2008

Contact: Annette Packard

University of Dayton
300 College Park Avenue
Dayton, OH 45469-0228

University of Maryland—Stepping Stones to Your Future

This is a 5-day commuter summer engineering camp for rising 7th and 8th graders. Students are introduced to mathematics, science, and engineering concepts through fun hands-on applications. This one-week commuter camp is an excellent opportunity for young men and women to build interests in science, math, and engineering while working with current college students. The goal is to build an awareness of the range of opportunities in engineering.

When: July 14—18, 2008 or July 21—25, 2008

Where: University of Maryland College Park

Who: Current Grade 6 & 7 students

Cost: \$300

Aid: Full and partial scholarships available based on financial need

Deadline: April 4, 2008

Contact: Women in Engineering-SSTYF

152

University of Maryland Young Scholars Program

Rising high school students explore academic interests and career opportunities while discovering the independence of college life. Earn three University of Maryland credits in just three weeks. Students choose one course from the following: architecture, biology, business and entrepreneurship, drawing, engineering, materials science engineering, journalism, mock trials, music technology, creative writing, kinesiology, landscape architecture, biotechnology, and sociology. Study with exceptional faculty in a challenging environment. Participants—residential or commuter—attend seminars and social activities while gaining an exposure to campus life.

When: July 13—August 1, 2008

Where: University of Maryland, College Park

Who: Rising high school juniors and seniors

Cost: Residential course package \$2,700;
Commuter Course Package \$1,700

Aid: Limited \$700 scholarships

Deadline: Rolling Admissions

USDA/Beltsville Agricultural Research Center Research Apprenticeship Program

This apprenticeship program strives to increase the awareness, purpose, and challenge of research in food and agricultural sciences for students. The Beltsville Area Research Apprenticeship Program (RAP) provides an excellent opportunity for high school students to interact with research scientists and gain firsthand experience in a research environment. Student apprentices are employed as engineering, biological or physical science aides. They perform simple routines in support of research projects involving various engineering disciplines, plant and physical science related projects. Applicants should be 16 years of age; be a U.S. Citizen; submit a letter of recommendation from a guidance counselor or science teacher; and obtain and submit a work permit. Applications will be considered regardless of race, sex, national origin, religion, marital status, physical disability or other non-merit factor.

When: Research apprentices are employed during the summer for 8 weeks. The start date for most students will be scheduled for late early June 2008.

Where: Beltsville Agricultural Research Center, Beltsville, Maryland

Who: Applicants must be 16 years of age and be a U.S. Citizen;

Cost: N/A

Wonder Kids! (Hands-on Enrichment in Art, Science and Outdoor Adventures)

This hands-on enrichment program in art, science and outdoor adventures invites kids to get creative in a big way! Children explore age-appropriate design challenges, major art movements, and outdoor team-building adventures every day. Wonder Kids! highly qualified staff encourages kids to brainstorm and to develop their own projects. It's a great place for kids who like to think outside the box and go farther than they normally can with science and art during the school year. Check out our weekly themes at www.wonder-kids.org.

When: June 16—August 8, 2008 (9:00a.m.–3:30p.m., Mon.–Fri, with optional early drop-off and late-stay for an additional fee)

Where: Potomac, Maryland

Who: Boys and girls ages 5-12 years old

Cost: \$375 per session

Aid: Some available.

World Affairs Seminar— University of Wisconsin at Whitewater

This unique youth activity enables high school students from around the world to come together to study and discuss some of the most perplexing global issues and problems. Through discussions with experts on specific topics and learning about customs, traditions, and cultures of other countries, students gain a better understanding of the causes of international conflicts and how the understanding of other societies can prevent a crisis and ensure peace. The 2008 theme is: On The Edge: Population and Environment in the 21st Century

When: June 22—27, 2008

Where: University of Wisconsin, Whitewater Campus

Who: High school sophomores, juniors, and seniors

Cost: \$480: Inquire about group discounts and reduced fees for international exchange students

Aid: Sponsorship and scholarships from local service clubs

Deadline: May 22, 2008

Contact: Frederick "Rick" Luedke, General Manager

University of Wisconsin-Whitewater

800 West Main Street

Whitewater, WI 53190

Telephone: 888-404-4049 (toll free)
