

circle graph

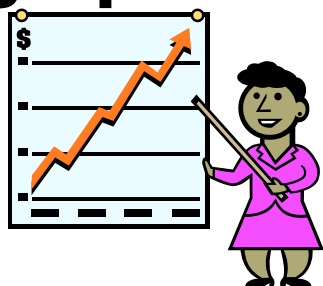

A graph that compares parts of a set of data as percents of the whole set.

data

Numerical information gathered for statistical purposes.

line graph

Numerical data displayed to show trends or changes over time.

intersection

$$-2 < x < 5$$

The graph of a compound inequality containing *and*, the solution is the set of elements common to both inequalities.

union

$$x > 5 \text{ or } x < -2$$

The graph of a compound inequality containing *or*, the solution is a solution of either inequality.
