

In an effort to expand our communication efforts between the school and home, Eastern has added a new text messaging option for families.

The text messaging service will be utilized to alert families to important events and/or information from the school.

Examples of how this service will be used include but are not limited to:

- Alert parents/guardians to distribution of interims and report cards
- Alert parents/guardians to early school closing due to weather
- Alert parents/guardians to activities happening at the school

**To opt into this text messaging service simply text EASTERN to 30644.** Standard text messaging rates will apply. I am hopeful that many families will take advantage of this new communication tool.
