

NARROWING YOUR COLLEGE LIST

Think about REACH and TARGET schools! Remember few schools are considered SAFE anymore.

REACH!!! Reach for a school you have always dreamed of attending, even if it is highly selective and you may not meet all of the admissions requirements.

With a little luck, who knows? The only risk is a rejection and the cost of an application fee.

1. _____

2. _____

TARGET: Several schools whose admission requirements seem to match your qualifications well. You stand a good chance of being accepted, although it may not be a "sure thing".

2. _____

3. _____

4. _____

Remember: it is always a good idea to submit an application early to Montgomery College so you can take courses in the future without having to pay an application fee.
