<p>*During the advisory period, students are working on reading indicators, reading silently, completing homework or receiving help from a teacher for re-teaching and/or reassessment of a concept. We ask that if you have questions for a teacher that you call or email for an appointment rather than discuss your question during advisory. During advisory, feel free to stop by the Media Center to check out our collection, receive assistance with Edline or mingle with the principal, Mr. Rubens.</p>
