School

Second Grade

November 2006

By Grace

## Description

Mount Rushmore is very, very, very big. It has four of our presidents faces on it.

## Architect

Gotson Borglum was the architect.

## Location

Mount Rushmore is located in South Dakota. It is near a forest.

## Date of Construction

It was built in 1927.

## Importance

Mount Rushmore is important because it has very important presidents faces on it.

## Interesting Facts

Each of the presidents eyes was as long as a car! George Washington face was 60 feet long!
