

# Communication Journals

At the start of the school year I will begin a communication journal ~ thus enabling me to stay in contact with you! 😊

Also this way I can keep all parents up-2-date about what we have been doing in our classroom and activities that we may be involved with in the future.

Please share what is in the journal with your student!

\* Please do this if you think it is appropriate. \*

I don't want my students to think that the journal is full of "secrets." Talk with them about their day at school ~ it is very important for them to know that we are communicating and that we all want the best for your child.

Thanks for your support!

Ms. Vancavage 😊
