Freshmen Survival Guide

Be A Part from the Start
Class of One-Five

Greetings Wootton High School Class of 2015 Parents!

Welcome to Wootton High School and I am so excited you are here with us to discuss the exciting things planned for the next four years. You will have the opportunity to discuss all the ways that Wootton will support your students success. We will be providing you with a lot of information to assist you in beginning the school year successfully.

The information provided in this booklet was provided to you by upper classmen. The tips, suggestions, and advice offered will serve as a great resource for you as you help your young person begin high school. Please, read through this booklet and remember what the information they have provided- they have been where you are and they know the school building. Keep this booklet throughout the school year and refer to it as needed. In just a few short years you will be offering your advice to rising freshmen parents. What advice will you give them?

We look forward to working with you this year. If you need assistance or have questions please, don't hesitate to ask, we have student mentors, teachers, staff and administration here to make this a successful experience. We are all here to help you transition to high school.

Best of luck to you as you "Soar into High School!"
