Describe how the action plan was developed.

- By identifying students who are struggling, but who exhibit potential and are not getting any services of existing support programs in school.
- By starting a pilot program with a small population of students.

Describe how the action plan supports the mission and objectives.

- By creating a program to support students to enable them to be successful in academics, become involved in extra-curricular activities and to have access to rigorous course work.

Describe how the necessary resources will be committed to ensure the success of the action plan.

- **Commitment to staffing**
- **Administrative support**
