

## The Jamie Hogan Memorial Award

Jamie Hogan was a shining light of the Wootton H&A Class of 2006. When her life ended in a tragic car accident in June 2007, it was difficult to believe that her effervescent spirit was no longer part of this world. Jamie had a true sense of herself, which she demonstrated daily through her actions, words, and tremendous sense of humor. Her bubbly laughter and bright smile belied her steel-strong belief that though the world was a good place, it could be better and that only we could make it so. Jamie's activist nature could be seen in her support of environmental and social causes. She loved the outdoors: hiking, caving, kayaking, skiing; she participated in peace rallies and practiced vegetarianism from a young age; and in her first year at the University

of British Columbia, she discovered a love of cultural anthropology. She adored traveling and learning about other cultures; she spoke of joining the Peace Corps after graduation so that she could help others.

We are so pleased to establish the Jamie Hogan Memorial Award, which will be given each year to a student who demonstrates care for others, care for the environment, and exhibits a sense of fun and adventure in life. With this award, we want to honor Jamie, her family, and her life...and to have her light continue to shine!
