DRAFT August 2011

ELMO-document camera set-up with a laptop, LCD projector, and VGA video splitter

Connect the laptop to RGB-in on the ELMO.

DRAFT August 2011

ELMO-document camera set-up with a laptop, LCD projector, and VGA video splitter

Connect from RGB-out on the ELMO to Input on the VGA splitter.

DRAFT August 2011

ELMO-document camera set-up with a laptop, LCD projector, and VGA video splitter (cont)

Connect Out 1 on the splitter to Computer 1 In on the LCD projector.

DRAFT August 2011

ELMO-document camera set-up with a laptop, LCD projector, and VGA video splitter (cont)

Connect the USB cable from the ELMO to the computer.

Once the USB connection is made, a Hardware Wizard will appear. Accept the default settings. Click Next and Finish. The Hardware Wizard needs to be done for the Image Mate software to recognize the ELMO. The wizard will run using the Local Admin login or your AD login.
