

S-Video Dual Display Quick Tips

Introduction

This quick tips guide contains directions for connecting "TV Tuner" computers for TechMod Summer 2012 to a television.

Display modes can be changed through the school menu using icons in the Windows Accessories \Resolution section or the keyboard combination of the Windows Key and the letter P.

Directions

1. Connect a blue RGB cable from one of the heads of the "GMS59 to dual VGA" splitter. Connect the other end of the cable to a monitor. This should already be done.
2. Connect the cable labeled "#2 Vga to Converter" to the S-Video Converter (port is labeled "VGA In"). Connect the other end of the cable to one of the "DMS59 to Dual VGA" heads.
3. Connect the cable labeled "USB power cable" to the S-Video Converter (port labeled "SV Power"). Connect the other end of the cable to an empty slot in the back of the computer.
4. Connect the cable labeled "S-Video to TV" to the S-Video Converter (port is labeled "S-Video Out"). Connect the other end of the cable to the S-Video port of a television.
