www.internet4classrooms.com

<http://nlvm.usu.edu/en/nav/vLibrary.html>

The National Library of Visual Manipulatives was created by Utah State University. The site has a Spanish version. Lessons are arranged in four sections: Pre-K – 2, 3-5, 6-8, 9-12. Within each one are four categories: Numbers & Operations, Algebra, Geometry & Measurement, and Data Analysis & Probability.

<http://illuminations.nctm.org>

This National Council of Teachers of Mathematics website features 90 online activities and 524 lessons for preK-12 teachers. Lessons include objectives, materials, an instructional plan, assessments and reflection questions.

GENERAL INTERNET SITES CONTINUED

www.factmonster.com

Math section features a selection of math games from simple counting games to fairly complicated fractions games. Players choose their own level of difficulty. There's a math homework section that includes numbers and formulas, factors and fractions, measurement and money. There are also descriptions of the various branches of mathematics, a history of math, notable mathematicians and quizzes to test student skills.

www.funbrain.com

Site designed with bright, colorful cartoon figures. The math links connect to collections of games. There is a "find a game by grade level" link which allows you to tailor games to ability levels. (Many of the games on this site are the same as those on factmonster.com.)

www.AAAMath.com

Includes 5,000 printable math worksheets and ideas and instructions for teaching math concepts. Lesson plans are also available.

http://www.deltacollege.edu/dept/basicmath/Multicultural_Math.htm

Multicultural math activities. For example, the ancient Egyptian way of multiplying.

www.kokogiak.com/megapenny

Visual representations of progressively bigger numbers, using a penny as a unit. If you click on "10 million pennies", the screen will show a cube of pennies that is six feet high, wide and long, next to an adult man for scale.

www.mathcats.com

Click on 'crafts'. There are ideas here for art/math projects. Fun site. Everything here is cats. A door marked 'older cats' at the bottom of the page is for teachers & parents.

www.brainbashers.com

Collection of brainteasers, puzzles riddles, games, and optical illusions. Updated regularly.

www.mathforamerica.org

Worksheets, activities, games, links.
