| Sun | Mon | Tue | Wed | Thu | Fri | Sat |
| Welcome to the summer ma entering Fifth Grade. This ca not required. Reviewing the the foundation for math suc | th calendar for students alendar is recommended, but learned skills will maintain cess at the next grade level. | Draw three different designs that are all $3 / 4$ green. How are the designs similar? Different? | 2 <br> Students from three classes are planning a field trip. On the trip, there will be 24 students from each class, along with 8 teachers and 12 parents. How many people go on the trip? | 3 <br> A student says that $1 / 5$ is bigger than $1 / 4$ because 5 is bigger than 4. <br> Are they correct? Why or why not? | 4 Independence Day | 5 <br> Sarah rounded a four digit number to 3,500 . What could her number be? <br> What other numbers could be rounded to 3,500 ? |
| $\square$ <br> Alex says the shape is a rhombus. Carolyn says the shape is a square. <br> The teacher says they are both correct. Why? | Write the following number in expanded form. 24,036 | 8 <br> Write a multiplication word problem and teach someone the steps to solve it. | 9 <br> Mrs. Brewer and Mrs. Glawe each ate $3 / 4$ of their sandwich. Mrs. Brewer ate more than Mrs. Glawe. <br> Explain how this is possible. | 10 <br> Solve: <br> - 4,689-2,349 <br> - 5,008-899 <br> - 1,000-749 | 11 <br> Four families each brought the same number of chairs to a block party. Three more chairs are needed to seat all 27 of the participants. How many chairs did each family bring? | 12 How many $1 / 4$ are there in 2 $3 / 4$ ? <br> What about it $41 / 2$ ? |
| 13 <br> My calculator's subtraction key is broken. <br> What else could I put into the calculator to solve this problem? $68+X=413$ | 14 <br> Sort these fractions: Are they closer to $0,1 / 2$ or 1 ? Draw a picture or model to prove it. $5 / 6,3 / 4,7 / 9,2 / 5,2 / 3,1 / 8$ | 15- Is this number closer to3 or 4 ?- Is this number closer to3 or 3.1 ?Be sure to explain how <br> you know. | 16 Order these decimals from least to greatest: <br> - 34.098 <br> - 33.999 <br> - 34.908 <br> - 34.089 | 17 <br> Draw three different shapes that all have a perimeter of 46. <br> How are they similar? How are they different? | 18 <br> The area of Mr. Burd's rectangular garden is 240 square feet. <br> - Give at least two different possible measurements for his garden. <br> - Compare the perimeters of these gardens. | 19 <br> Sean has 21 cents in his pocket. Sean told Jesse that he would give Jesse the 21 cents if he could correctly guess what coins they were. He would give Jesse 3 guesses. If Jesse did not guess correctly, Jesse would have to give Sean 21 cents. Should Jesse guess? Explain your math thinking. |
| $20$ <br> Write a division word problem and teach someone the steps to solve it. | 21 <br> Two brothers want to make muffins for the 35 kids at their summer camp. They have $\$ 5.00$ to spend on muffin mix. The box of muffin mix said it would make 12 muffins. Each box of muffin mix is $\$ 1.25$. Will the boys be able to make enough muffins for everyone? | 22 <br> Order these fractions from least to greatest. $1 / 3,1 / 8,1 / 5, \text { and } 1 / 10$ <br> Draw a model to prove you are correct. | 23  <br> Solve:  <br> $\bullet$ $24 \times 5$ <br>   <br>   <br>  $312 \times 6$ <br>  $129 \times 12$ | 24 <br> In the Land of Oz lives Ozzie, who is confused about time. He is trying to figure out how many times a day the hour hand passes a number that is a multiple of 3. <br> What is the answer? | 25 <br> The answer is 312 , what is the question? <br> - What other questions could have this same answer? <br> - Can you come up with a problem that uses multiple operations? | 26 <br> Name at least two numbers that come between 2.7 and 2.8. <br> Create a number line to show these decimals. |
| 27 <br> Draw a picture that includes the following (you may add more): <br> - 2 parallelograms <br> - 1 right angles <br> - 1 obtuse angle <br> - 1 trapezoid | $\begin{aligned} & 28 \text { What are the missing \#s? } \\ & \begin{array}{c} 38 \_4 \\ 410 \_ \\ +\quad-74 \\ \hline 8900 \end{array} \end{aligned}$ | 29 The teachers ate a lot of candy at their meeting! Who ate the most? Least? How can you prove it? Mrs. A ate $2 / 6$ of her bar Mr. B ate $2 / 3$ of his bar Ms. C ate $5 / 6$ of her bar Mrs. D ate $1 / 2$ of her bar Mr. E ate $1 / 3$ of his bar | 30 <br> The answer to a division problem is 23. What was the problem? <br> How can you change the problem so that it has a remainder of 3. | 31 <br> The difference between two numbers is $\mathbf{2 , 1 0 6}$. What could the two numbers be? What other two numbers have the same difference. | The design of the activities support instruction in the $n$ content and presentation. not to be done as independ worked on with a parent, gu sister. Talking about the pr completing each activity. O calendar are recommended reinforcement of math conc | this calendar is meant to w curriculum in both its erefore the activities are t problems, but to be rdian or older brother or blem is an important part of the backside of this math websites for more pts and computation. |

## http://www.allmath.com/

This site has flash cards and links to other sites for games, math humor, worksheets, math help and more.

## http://www.aplusmath.com

This site has basic facts flash cards and a game room, worksheets, multiplication table practice and more.

## http://www.mathfactcafe.com

This site has a pencil next to pre-made cards so kids can do the facts and have the computer check them. Kids can print them out and also put in their own numbers and make their own worksheets.

## http://www.funbrain.com

This site has easier to harder addition and subtraction computation and problem solving. It also has language and grammar skills activities
http://www.dositey.com/
This site is a lot of fun and is good for 2 digit addition with and without regrouping

## http://www.24game.com

This site has math games using basic operations
http://www.coolmath4kids.com
This site has a wide range of topics and will give you step-by-step instructions.

## http://www.abc.net.au/countusin/games

Each game is designed to help kids understand basic concepts in math. This site has a variety of math games i.e. volume, length, halves, chance, numbers, time, sorting, subtraction, and addition. It is better for students of the primary grades.

## http://www.learningplanet.com

This site has games by grade level but with advertisement and a subscription. There are some free games.
http://www.gamequarium.com
This site has math activities for K-6.

## http://www.SETGame.com

This is a card game to build students' visual thinking and pattern skills in math.
Commercial, but does have some great free puzzles.

## http://www.math.com

Good resource of how to do problems
http://www.mathcats.com
This is an interactive fun site
http://www.spikesgamezone.com
Lots of math games
http://www.funschool.com
This site has games, but also commercial advertising

## http://www.figurethis.org

This site gives you ideas for fun hands-on math activities. Good for upper grades
http://www.kidsites.com
List of sites for math as well as other subjects.

## http://timezattack.com

FREE home version for practicing multiplication facts (also new versions for division, addition, and subtraction!)
http://abcya.com
Loads of math games for K-5 as well as games for reading and language arts
