4:00 - 4:55 pm..... 2010-2011 Boys

ALL CLINICS  
GROUPED BY AGE

**COST IS \$75/SESSION**

During the clinic, players will develop an understanding of basic techniques such as turning, dribbling, passing and receiving. They will continue to refine and improve these skills during each session while being introduced to small sided games.

Throughout the clinic, players will be taught the principles of attack, defense and transition and learn how to effectively play the 'real' game.

#### GRADE K-1 FORMAT

Our Player Development League (PDL) for kindergarten and 1st Grade offers soccer education at it's best in a positive, fun environment where players improve their skill during continuous play. The 4 v 4 system accelerates development of dribbling, turning and passing abilities as it provides a basic picture for players to learn the game. Our professional staff takes the necessary steps to ensure each game fits the players' needs, ultimately leading to better game intelligence and understanding.

#### GRADE 2-3 FORMAT

Our Player Development League 2nd-3rd Grade match day provides players a fun environment with coaches focused on building a strong technical foundation. These five-a-side games, first used as a developmental tool in the UK, feature four field players and a goalkeeper. This style is simple, yet allows for players to gain experience through realistic, game-like situations. Along with a basic introduction to goalkeeping, the five-a-side format results in consistent touches on the ball and a fundamental understanding of the principles of attack and defense with the guidance of our professional coaching staff.
