

Gabrielle

A plastic bag can take up to 400 years to be broken down.

If we reuse plastic baggies we will be good to the Earth.

William

A lot of trash is put in the ocean. It makes them die because they have injuries.

Put the trash in the trash bin instead of in the water.

Wiley

Bikes cost less than cars.

You should ride your bike to save money.

Tony

If recycled a glass bottle it take less time to be recycled.

When you are done with something that is made of glass put it in the recycling bin.

Sylvia

People leave over 15 billion pieces of litter on or near roads in the U.S.A.
every year.

Don't litter!

Machines like refrigerators, dishwashers, and washing machines use 20 percent of the energy in a house.

Don't leave machines on when you aren't using them.

Robert

It's better to use a bucket and sponge than a hose to wash your car!

Rather than using a hose to wash your car use a bucket and sponge!

Oliver

People in heavy traffic breathe in exhaust (smoke) from other cars. The air inside a car becomes 10 times more polluted than regular air. A car pollutes the air.

You should use a bike more than a car.

Americans use a lot of energy.

Nikola

Turn the lights off when you are finished.

Mia

Only 1% of water can be used by people.

Drink only some water instead of a lot.

Merryn

When you turn off the water while brushing your teeth you can save 8 gallons of water.

Liam

Around 80 billion aluminum cans are used *every* year.

Katherine

9 billion tons of trash go into the ocean every year.

You should throw away your trash when you're done with it.

Justin

Air conditioners use a lot of electricity. Fans don't use that much electricity.

When you are hot you should turn on the fan instead of air conditioning.

Jesse

About 11% of the trash in the ocean comes from plastic shopping bags.

Recycle your plastic shopping bags.

Ian Campbell

Energy vampires use a lot of energy when they are off but plugged in ,roughly 85% of the energy they use when they are off.

You should unplug tvs,computers,ipads,iphones, and itouches when you are not using them.

Henry

In our country schools spend more than 200,000 dollars on litter clean up each year.

You could help by picking up trash by yourself so we don't have to spend money on it

Graham

Showers use less water than baths.

70 gallons of water

25 gallons of water

you should use showers more than you use baths.

Grace

Brushing teeth with the water off saves 8 gallons of water a day.

The water should only be on when boys and girls are washing their hands.

Francisco

Most of the energy in a washing machine is for heating the water.

You should use cold water to wash your clothes.

Daniel

If we all recycle our paper we will save a lot of wood.

When you are done with paper put it in the blue bin.

Claire

90 percent of transportation in the U.S. is by car.

You should walk more often.

Charlotte

Cars make a lot of pollution when parents drive their kids to school.

Walk your kids to school.

Cassidy

Clothes dryers use warm air to dry the clothes and that uses a lot of energy .

Next time you want to dry clothes you should hang your clothes outside to save energy.

Cameron

The U.S.A. doesn't recycle glass a lot.

You should recycle glass.

Zachary

Only a little bit of peopol in the United states use busses, subways, trains and other systems.

You should use more busses , subways and trains.
