

Love Movies?

Are you the kind of person who loves movies?

Do you make it a point, at any time of the day or night, to go to the movies or stream them at home?

Well, we have the course for you:

Film

The **IB Film** course is designed to trace the development of film as the most popular and accessible art form of the past 115 years.

Students will be able to evaluate films and prepare to create their own film productions.

The course provides an understanding of the direct correlation between artistic creations and the cultural influences on production. As the most popular and accessible artistic medium for the past century, film is often viewed as the *prime carrier of culture*. Through this course, students have the opportunity to research and evaluate film, not only for its artistic merits, but also its distinct relationship to society, politics, economics and technology. The culmination of the course is in the creation of student productions which demonstrate the most collaborative of artistic mediums.

The IB Film course is open to all SVHS students in grades 11 & 12.

Students should take the course for two years to complete the IB requirements
