

Quince Orchard High School
Mathematics Department

Dear Parents:

The Math Department of Quince Orchard High School is offering a Common Core Geometry Preparation course this summer. The purpose of this prep course is to review and enhance the algebra skills students need in order to be successful in mastering the concepts of honors geometry. In addition, students will explore some of the beginning concepts of the new Common Core curriculum. Participation in this course would be beneficial for any student enrolled in honors geometry for next year.

There will be two sessions from which to choose. Session 1 will be held the week of July 14 - July 18, and session 2 will be held July 21 - July 25. Each session will run from 9:00 to 12:00. The cost is \$125. If you would like to have your child participate, you may register online by going to the Quince Orchard High School website. You will find a link on the Math Department page. You can also go directly to the online registration at <http://goo.gl/Vz7Er>.

As soon as you register your child, make payment through the online school store (credit or debit), or by mailing a check to the address below. The online store can be found on the QO website homepage. Look on the right-hand side, under "Important Info", and select "online school store". Once you are there select high school, then select Quince Orchard High School, and select the appropriate course. A student is NOT registered for a course until payment has been received.

Our summer sessions are always very popular, and fill up quickly. Register early to guarantee a spot for your child. If you need more information, contact Mr. Jernigan, QO Math Resource Teacher, via email (jeffrey_a_jernigan@mcpsmd.org), or by phone, 301-840-4543.

Payments may be mailed to: Summer Math Preparation
