Beware...

Space Heaters are Watt Eaters!

Don’t let space heaters * eat away at your school’s chances to win SERT award money. Space heaters waste energy and exhibit poor energy behavior.

Contact our office for information about energy efficient alternatives — foot warmers use 40 Watts vs. the 1,500 Watt space heater.

For more information please contact the SERT Office at:
Department of Facilities Management
2096 Gaither Road, Suite 200
Rockville, Maryland 20850
