

Parent Advisory Committee

The Parent Advisory Committee is a group consisting of parents from the many neighborhood communities involved with College Gardens Elementary School. The purpose of the committee is to meet regularly with school leaders to provide input, insight and suggestions to the normal operations of the organization. In addition, the committee provides critical input on the development of the School Improvement Plan, ensuring that the collaborative effort of key stakeholders is well represented.

Committee members are selected to represent their individual neighborhoods and serve as a voice for their area. Parents may contact the committee to discuss questions and/or concerns that pertain to the community at large. Personal issues should always be initially directed to school staff. If you have questions, input, or feedback for the committee, please email them directly as below.

Janet Pearlman
