

# Family Math Night at Highland View

On Dec. 1<sup>st</sup>, Highland View families and students eagerly arrived to participate in Family Math Night. Families gathered in the All Purpose room and enjoyed delicious pizza and then they were off to their grade level classes to engage in exciting math activities. To promote the enjoyment of math, teachers and Highland View volunteers prepared math kits for families to use at home.

We hope you enjoy viewing some highlights from this event.

A steady flow of families arrived and signed in for Family Math Night.

Math Content Coach, Ms. Sherri Stevens welcomed families.

After enjoying pizza, a large family turnout eagerly awaited directions from Ms. Stevens.

## Kindergarten

Kindergarteners and their families engaged in activities involving counting, number sense, and positional words.

## First Grade

First graders played addition and subtraction Bingo.

They also played games making number amounts.

## Second Grade

Second graders played games involving place value.

## Third Grade

Third graders played games involving fractions, computation, and place value.

## Fourth Grade

Fourth graders played games involving probability and fractions.

## Fifth Grade

Fifth graders played games involving per cents, decimals and fractions.

Everyone had a great time!
