

# Ms. Dardarian's Candy Estimation Contest

Our fun-loving principal, Ms. Dardarian has a special treat in store for students who enjoy solving Math problems and love munching on scrumptious candy. Just follow these easy contest rules.

1. Find the jar for your grade level.
2. Estimate how many pieces of candy are in the jar.
3. Write your name, your teacher's name and your estimate on the entry per ticket
4. Put your entry ticket in the box.
5. The student who estimates the actual number, or has the closest estimate to the actual number, will win the candy jar labeled for their grade level. If there is more than one correct entry, those tickets will be put into drawing, and only one name will be chosen.

Only one estimate per student! Good Luck!

## Congratulations to Our Winners

## First grade winner

## Fifth grade winners share the prize.
