

ESOL PARENT NIGHT

This January, Highland View held an English Speakers of Other Languages (ESOL) parent night to offer parents some ideas to help their children with math at home. Parents heard, and discussed everyday strategies to work on time, money, and estimating concepts. Then parents learned about 2 math games with playing cards to practice place value, addition, subtraction, multiplication, and division. The parents even enjoyed practicing some of the games with each other!

Parents listened to the presentation and learned about a variety of math games.

Interpreters and teachers assisted parents.

Parents enjoyed playing math games and were eager to share them with their families.

Special thanks to Ms. Mutafian and Ms. Keylor for taking these photographs.
