

April is Math Month

Highland View's mathematicians were very busy calculating during this past month of April. Ms. Stevens, Highland View's Math Content Coach, presented **The Problem of the Day** for each grade level to solve. Flocks of students eagerly streamed through the halls heading for the office to hand in their answers. Each student was rewarded with a prize.

At the **Estimation Stations**, kindergarten, first and second graders were challenged to estimate the number of jelly beans in a jar. Third, fourth and fifth graders had the opportunity to estimate the number of Skittles in a jar.

At the end of each week, students enjoyed listening to their teacher read a math story.

The Estimation Stations

Ms. Fleet explains the Estimation Station to the first graders in her math group.

Our mathematicians are working hard!

We Proudly Present our Gold Medal Winners!

First grade estimation winners
