

Random Selection Drawings

What: Random selection drawings are an opportunity where you can spend your King Cha Ching. You can win prizes like a pizza party for yourself and 3 friends, an MP3player, a digital camera and more!

How: You may put one or more King Cha Ching in the random selection bucket. At the end of the month one entry will be randomly selected as the winner. When you enter the drawing you will also be donating your King Cha Ching to MLK Green Schools Program for an environmental project. There is a tally sheet outside the cafeteria where you can see how much has been donated to the project.

Why: The random selection drawings are a way to win a desirable prize without having to save up for an expensive item at the King Cha Ching store. By donating your King Cha Ching to Green Schools you also have the opportunity to show the community your core value behavior and help the environment at the same time!

Where: You can enter the random selection drawings during lunch in the cafeteria.

When: Each month there will be a random selection drawing. Listen to the announcements to find out what the prize will be and when the winner will be selected.
