

## Honors Geometry Course Expectations 2009-2010

Neelsville Middle School

Ms. Defibaugh

301-353-8064

### Units of Study

Unit	Title	End of Unit Assessment
1	Foundations of Geometry	September 18
2	Reasoning Geometry	October 15
3	Polygons	November 20
4	Congruence	January 15
	<b>Midterm Exams</b>	<b>January 15-January 22</b>
5	Indirect Measurement	February 25
6	Three-Dimensional Geometry and Measurement	March 19
	<b>MSA</b>	<b>March 9-March 18</b>
7	Similarity	April 16
8	Circles	May 14
9	Trigonometry	June 4
	<b>Final Exams</b>	<b>June 9-June 16</b>

### Grading Policy

Grading Categories	
Homework Practice	10%
Formative Assessments	50%
Summative Assessments	40%

Grades will be recorded using a point system with the lowest grade being 50% for an assignment that meets minimum standard. Minimum standard is defined as at least 50% of the assigned work attempted including required work. Formative assessments are graded class work and homework, quizzes & formative assessments. Summative assessments are projects, unit tests, chapter tests, and major quizzes covering multiple objectives.

Attendance is essential for success in class. If you are absent for any reason, it is your responsibility to ask for assignments. Assignments missed due to absence must be completed within two class periods. Each assignment will have a due date; this is when the assignment is submitted to teacher. The deadline is the last day an assignment will be accepted for grade. Missing work will be recorded in the grade book as a zero. The letter "z" indicates the student have not turned in assignment by due date. The letter "x" indicates the student is excused from assignment and will not lose points.

Teachers will determine the method and scheduling of reteaching. Reassessment opportunities will be identified by course teachers before assignments, major test or unit assessments are assigned. Opportunities will be given to students who completed at least 50% of original tasks or assessment and completed required reteaching activity as determined by the teacher. The grade will replace the original grade.

Students should bring two pencils, textbook, TI-84 graphing calculator, and paper everyday.

Mathematics teachers will communicate to parents through Edline, progress reports, interims, report cards, email, and phone calls as needed. You may reach the teacher via email or phone call.
